

Anti-Human IL-12 Antibody

Catalog # ABG10204

### Specification

## Anti-Human IL-12 Antibody - Product Information

Application Reactivity Host Clonality WB, IHC, E Human Mouse Monoclonal

## Anti-Human IL-12 Antibody - Additional Information

#### Preparation

Produced in BALB/c x ICR F<sub>1</sub> mice using highly pure (>98%) recombinant human IL-12 as the immunizing antigen. This IgG1<sub>K</sub> antibody was purified from ascites fluid by Protein A affinity chromatography.

#### WesternBlot

To detect hIL-12 by Western Blot analysis this antibody can be used at a concentration of 0.50-1.0  $\mu$ g/ml. Used in conjunction with compatible secondary reagents the detection limit for recombinant hIL-12 is 0.5-1.0 ng/lane, under non-reducing conditions.

#### Sandwich

In a sandwich ELISA (assuming 100 $\mu$ l/well), a concentration of 2.0-4.0  $\mu$ g/ml of this antibody will detect at least 1000 pg/ml of recombinant human IL-12 when used with BioGems' biotinylated antigen affinity purified anti-human IL-12 (60-012BT) as the detection antibody at a concentration of approximately 4.0-8.0  $\mu$ g/ml.

#### Immunohistochemistry

This antibody stained PBMC. The primary antibody was incubated at 10.0  $\mu$ g/ml for one hour at room temperature followed by a fluorescent labeled secondary antibody. Optimal concentrations and conditions may vary. <br/>
> Protocol and staining provided by Dr. Lauren Binge, Laboratory of Prof. Charles Mackay, Monash University, Australia. class="MsoNormal"><span>

Formulation A sterile filtered antibody solution was lyophilized from PBS.

### Reconstitution

Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.

Storage -20°C

#### Precautions

Anti-Human IL-12 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# Anti-Human IL-12 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
