

**Anti-Human sRANK Ligand Antibody**  
**Catalog # ABG10519****Specification**

---

**Anti-Human sRANK Ligand Antibody - Product Information**

Application	<b>E</b>
Reactivity	<b>Human</b>
Host	<b>Mouse</b>
Clonality	<b>Monoclonal</b>

**Anti-Human sRANK Ligand Antibody - Additional Information****Preparation**

Produced in BALB/c x ICR F<sub>1</sub> mice using highly pure (>98%) recombinant human sRANK Ligand as the immunizing antigen. This IgG1<sub>K</sub> antibody was purified from cell culture by Protein G affinity chromatography.

**Sandwich**

In a sandwich ELISA (assuming 100µl/well), a concentration of 1.0-2.0 µg/ml of this antibody will detect at least 500 pg/ml of recombinant human sRANK Ligand when used with BioGems' biotinylated antigen affinity purified anti-human sRANK Ligand (60-283BT) as the detection antibody at a concentration of approximately 0.125-0.25 µg/ml.

**Formulation**

A sterile filtered antibody solution was lyophilized from PBS.

**Reconstitution**

Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.

**Storage**

-20°C

**Precautions**

Anti-Human sRANK Ligand Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**Anti-Human sRANK Ligand Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.
