

### Apq5/Atq5 Antibody

**Rabbit Polyclonal Antibody** Catalog # ABV10683

### **Specification**

### **Apg5/Atg5 Antibody - Product Information**

**Application Primary Accession** Other Accession Reactivity Host Clonality

Isotype

WB O3MO06.1 CAI31281 Human, Mouse, Rat, Pig, Bovine **Rabbit Polyclonal** 

Rabbit IgG

### Apg5/Atg5 Antibody - Additional Information

Application & Usage

Western blotting (0.5-4 µg/ml). However, the optimal concentrations should be determined individually. The antibody recognizes ~37 kDa Apg5/Atg5 from samples of human, mouse and rat origins. Reactivity to other species has not been tested.

### **Other Names**

Autophagy protein 5, APG5-like, Apoptosis-specific protein, autophagy protein, atg5, atg-5, apg5, apg-5

### **Target/Specificity** Apg5

# **Antibody Form**

Liquid

# **Appearance**

Colorless liquid

### **Formulation**

100 μg (0.5mg/ml) affinity purified rabbit polyclonal antibody in phosphate-buffered saline (PBS) containing 30% glycerol, 0.5% BSA and 0.01% thimerosal.

The antibody solution should be gently mixed before use.

# **Reconstitution & Storage**

-20 °C

### **Background Descriptions**

### **Precautions**

Apg5/Atg5 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

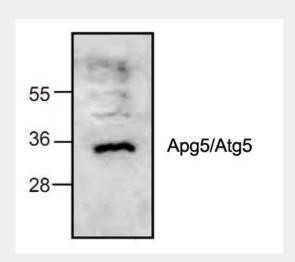

### Apg5/Atg5 Antibody - Protein Information

### **Apg5/Atg5 Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

### Apg5/Atg5 Antibody - Images

Western blot analysi s of Apg5/Atg5 in Jurkat cell lysate.

### Apg5/Atg5 Antibody - Background

Autophagy, the process of bulk degradation of cellular proteins thro µgh an autophagosomic-lysosomal pathway is important for normal growth control and may be defective in tumor cells. It is involved in the preservation of cellular nutrients under starvation conditions as well as the normal turnover of cytosolic components. An ubiquitin like conj µgation system is involve in the formation of autophagosome where by Atg12 is covanletly bound to Apg5/ATG5. The conj µgation is mediated by the ubiquitin-E1-like enzyme Atg7 and thE2-like enzyme Atg10.
