

### CTGF Antibody

Rabbit Polyclonal Antibody Catalog # ABV10995

## Specification

# CTGF Antibody - Product Information

Application Primary Accession Other Accession Reactivity Host Clonality Isotype Calculated MW WB <u>P29279</u> <u>BAG52518</u> Human, Mouse, Rat Rabbit Polyclonal Rabbit IgG 38091

# CTGF Antibody - Additional Information

Gene ID 1490

Application & Usage

Western blotting (0.5-4  $\mu$ g/ml). Per researchers feedback, it also works well in Immunohistochemistry (10-20  $\mu$ g/ml, frozen and paraffin sections). However, the optimal conditions should be determined individually.

**Other Names** 

connective tissue growth factor, CCN2 , CCN-2, CCN 2, Hypertrophic chondrocyte-specific protein  $\ensuremath{\mathsf{24}}$ 

Target/Specificity CTGF

Antibody Form Liquid

Appearance Colorless liquid

**Formulation** 100  $\mu$ g (0.5 mg/ml) affinity purified rabbit anti-CTGF polyclonal antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, 0.01% thimerosal.

Handling The antibody solution should be gently mixed before use.

Reconstitution & Storage -20 °C

**Background Descriptions** 

Precautions

CTGF Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# **CTGF Antibody - Protein Information**

### Name CCN2 (<u>HGNC:2500</u>)

### Function

Major connective tissue mitoattractant secreted by vascular endothelial cells. Promotes proliferation and differentiation of chondrocytes. Mediates heparin- and divalent cation-dependent cell adhesion in many cell types including fibroblasts, myofibroblasts, endothelial and epithelial cells. Enhances fibroblast growth factor- induced DNA synthesis.

#### **Cellular Location**

Secreted, extracellular space, extracellular matrix {ECO:0000250|UniProtKB:P29268}. Secreted {ECO:0000250|UniProtKB:P29268}

#### Tissue Location

Expressed in bone marrow and thymic cells. Also expressed one of two Wilms tumors tested.

## **CTGF Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

#### **CTGF Antibody - Images**

### CTGF Antibody - Background

CTGF (connective tissue growth factor) is a cysteine-rich, secreted peptide. It is a new member of the peptide family that includes serum-induced immediate early gene products, a v-src-induced peptide, and a putative proto-oncogene. Among the many functions of the CTGF gene family are embryogenesis, wound healing, and regulation of extracellular matrix production.
