

Anti-TSH Antibody (1H4G9)
Mouse Monoclonal Antibody
Catalog # ABV12097**Specification**

Anti-TSH Antibody (1H4G9) - Product Information

Application	E
Primary Accession	P01222
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Isotype	Mouse IgG1, κ

Anti-TSH Antibody (1H4G9) - Additional Information**Gene ID** 7252

Positive Control	ELISA
Application & Usage	ELISA Capture: 0.5-10 $\mu\text{g/ml}$, ELISA Detection: 0.05-0.2 $\mu\text{g/ml}$

Other Names

Thyroid-stimulating hormone subunit beta, TSH-B, Thyrotropin beta chain

Target/Specificity

Thyrotropin subunit beta

Antibody Form

Liquid

Appearance

Colorless liquid

Reconstitution & Storage

-20 °C

Background Descriptions**Precautions**

Anti-TSH Antibody (1H4G9) is for research use only and not for use in diagnostic or therapeutic procedures.

Anti-TSH Antibody (1H4G9) - Protein Information**Name** TSHB**Function**

Indispensable for the control of thyroid structure and metabolism.

Cellular Location
Secreted.**Anti-TSH Antibody (1H4G9) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Anti-TSH Antibody (1H4G9) - Images**Anti-TSH Antibody (1H4G9) - Background**

Thyrotropin-stimulating hormone (TSH) is a noncovalently linked glycoprotein heterodimer and is part of a family of pituitary hormones containing a common alpha subunit and a unique beta subunit that confers specificity. Free alpha and beta subunits have essentially no biological activity. TSH (Thyroid stimulating hormone) is secreted from cells in the anterior pituitary and it is indispensable for the control of thyroid structure and metabolism. Free alpha and beta subunits have essentially no biological activity. TSH Antibody is produced from the hybridoma resulting from fusion of Sp2/0 myeloma and lymphocytes obtained from mouse immunized with purified TSH from human pituitary.
