

Phospho-IRS-1-S639 Antibody
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AE1018d**Specification**

Phospho-IRS-1-S639 Antibody - Product Information

Application	WB, IHC
Primary Accession	P35568
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Concentration	1mg/ml
Isotype	Rabbit IgG
Calculated MW	131591

Phospho-IRS-1-S639 Antibody - Additional Information**Gene ID** 3667**Other Names**

Insulin receptor substrate 1, IRS-1, IRS1

Target/Specificity

The antibody was affinity-purified from rabbit antiserum using epitope-specific phosphopeptide column, and the antibody against non-phosphopeptide was removed using non-phosphopeptide column corresponding to the phosphorylation site.

Dilution

WB~~1:500~1:1000

IHC~~1:50~1:100

Format

affinity Purified IgG, in PBS, 0.02% sodium azide and 50% glycerol.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Phospho-IRS-1-S639 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Phospho-IRS-1-S639 Antibody - Protein Information**Name** IRS1**Function**

May mediate the control of various cellular processes by insulin. When phosphorylated by the insulin receptor binds specifically to various cellular proteins containing SH2 domains such as phosphatidylinositol 3-kinase p85 subunit or GRB2. Activates phosphatidylinositol 3-kinase when bound to the regulatory p85 subunit (By similarity).

Phospho-IRS-1-S639 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)

Phospho-IRS-1-S639 Antibody - Images

Western blot analysis of extracts from 293 cells (Lane 1) and 293 cells treated with EGF (200ng/ml, 15min) using Phospho-IRS-1-S639 Antibody (#AE1018d).

Immunohistochemical analysis of paraffin-embedded human breast carcinoma tissue, using Phospho-IRS-1-S639 Antibody (#AE1018d).

Phospho-IRS-1-S639 Antibody - Background

This gene encodes a protein which is phosphorylated by insulin receptor tyrosine kinase. Mutations in this gene are associated with type II diabetes and susceptibility to insulin resistance.
