Goat Anti-FRA1 / FOSL1 Antibody
Peptide-affinity purified goat antibody
Catalog # AF1441a

Specification

Gene ID 8061

Other Names
Fos-related antigen 1, FRA-1, FOSL1, FRA1

Format
0.5 mg IgG/ml in Tris saline (20mM Tris pH7.3, 150mM NaCl), 0.02% sodium azide, with 0.5% bovine serum albumin

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions
Goat Anti-FRA1 / FOSL1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Goat Anti-FRA1 / FOSL1 Antibody - Additional Information

AF1441a (1 µg/ml) staining of Human Bone Marrow lysate (35 µg protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.

Goat Anti-FRA1 / FOSL1 Antibody - Background

The Fos gene family consists of 4 members: FOS, FOSB, FOSL1, and FOSL2. These genes encode leucine zipper proteins that can dimerize with proteins of the JUN family, thereby forming the transcription factor complex AP-1. As such, the FOS proteins have been implicated as regulators of cell proliferation, differentiation, and transformation.

Goat Anti-FRA1 / FOSL1 Antibody - References

Goat Anti-FRA1 / FOSL1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

• Western Blot
• Blocking Peptides
• Dot Blot
• Immunohistochemistry
• Immunofluorescence
• Immunoprecipitation
• Flow Cytometry
• Cell Culture
