

SLC22A16 Antibody (internal region)

Peptide-affinity purified goat antibody Catalog # AF2542a

Specification

SLC22A16 Antibody (internal region) - Product Information

Application

Primary Accession <u>Q86VW1</u>

Other Accession NP_149116.2, 85413

Predicted Human
Host Goat
Clonality Polyclonal
Concentration 0.5 mg/ml

Isotype IgG
Calculated MW 64614

SLC22A16 Antibody (internal region) - Additional Information

Gene ID 85413

Other Names

Solute carrier family 22 member 16, Carnitine transporter 2, CT2, Fly-like putative transporter 2, FLIPT2, Flipt 2, Organic cation transporter OKB1, Organic cation/carnitine transporter 6, SLC22A16, OCT6

Format

0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

SLC22A16 Antibody (internal region) is for research use only and not for use in diagnostic or therapeutic procedures.

SLC22A16 Antibody (internal region) - Protein Information

Name SLC22A16 (<u>HGNC:20302</u>)

Synonyms OCT6

Function

Facilitative organic cation transporter that mediates the transport of carnitine as well as the polyamine spermidine (PubMed:12089149, PubMed:20037140). Mediates the partially Na(+)- dependent bidirectional transport

of carnitine (PubMed:12089149). May mediate L-carnitine secretion from testis epididymal epithelium into the lumen which is involved in the maturation of spermatozoa (PubMed:12089149).

Cellular Location

Cell membrane; Multi-pass membrane protein. Note=Detected in the plasma membrane of Sertoli cells and in the luminal membrane of epithelial cells in the epididymis

Tissue Location

Expressed in testis and epididymis (at protein level) (PubMed:12384147, PubMed:12089149, PubMed:15963465). Expressed in endometrium (at protein level); highly expressed during the normal secretory phase, but expression is significantly reduced in the proliferative phase (PubMed:17197897). Expressed at lower levels in adult tissues including bone marrow (at protein level) (PubMed:12372408, PubMed:12384147, PubMed:15963465). Expressed in hematopoietic cells, including CD34(+) leukocytes (PubMed:12384147) Expressed in fetal liver (at protein level), brain, lung, kidney, heart, skeletal muscle, spleen and thymus (PubMed:12372408, PubMed:12384147, PubMed:15963465). Expressed in leukemia cells (PubMed:12384147). Abundantly expressed in ovarian cancer clear-cell adenocarcinoma (PubMed:17581421).

SLC22A16 Antibody (internal region) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
