

## RNF212 Antibody (internal region)

Peptide-affinity purified goat antibody Catalog # AF2771a

## **Specification**

## RNF212 Antibody (internal region) - Product Information

Application

Primary Accession <u>Q495C1</u>

Other Accession <u>NP\_919420.1</u>, <u>285498</u>

Predicted Human, Dog

Host Goat
Clonality Polyclonal
Concentration 0.5 mg/ml

Isotype IgG
Calculated MW 33365

# RNF212 Antibody (internal region) - Additional Information

#### **Gene ID 285498**

### **Other Names**

Probable E3 SUMO-protein ligase RNF212, 6.3.2.-, RING finger protein 212, RNF212

#### **Format**

0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin

#### **Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

### **Precautions**

RNF212 Antibody (internal region) is for research use only and not for use in diagnostic or therapeutic procedures.

# RNF212 Antibody (internal region) - Protein Information

## Name RNF212

#### **Function**

SUMO E3 ligase that acts as a regulator of crossing-over during meiosis: required to couple chromosome synapsis to the formation of crossover-specific recombination complexes. Localizes to recombination sites and stabilizes meiosis-specific recombination factors, such as MutS-gamma complex proteins (MSH4 and MSH5) and TEX11. May mediate sumoylation of target proteins MSH4 and/or MSH5, leading to enhance their binding to recombination sites. Acts as a limiting factor for crossover designation and/or reinforcement and plays an antagonist role with CCNB1IP1/HEI10 in the regulation of meiotic recombination (By similarity).

## **Cellular Location**

Nucleus. Chromosome. Note=Associates to the synaptonemal complex. Localizes to a minority of double-strand breaks (DSBs) sites. Marks crossover sites during midpachynema (By similarity).

# RNF212 Antibody (internal region) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture
