BBX antibody - middle region
Rabbit Polyclonal Antibody
Catalog # AI10081

Specification

BBX antibody - middle region - Product Information

Application	**WB**
Primary Accession	Q8WY36
Other Accession	Q8WY36, NP_064620, NM_020235
Reactivity	**Human, Mouse, Rat, Rabbit, Dog, Guinea Pig, Horse, Bovine**
Predicted	**Human, Mouse, Rat, Rabbit, Dog, Horse, Bovine**
Host	**Rabbit**
Clonality	**Polyclonal**
Calculated MW	**101 kDa KDa**

BBX antibody - middle region - Additional Information

Gene ID 56987

Alias Symbol	**HSPC339, MDS001, HBP2**

Other Names
HMG box transcription factor BBX, Bobby sox homolog, HMG box-containing protein 2, BBX, HBP2

Target/Specificity
BBX is a transcription factor that is necessary for cell cycle progression from G1 to S phase.

Format
Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.

Reconstitution & Storage
Add 50 ul of distilled water. Final anti-BBX antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at -20°C. Avoid repeat freeze-thaw cycles.

Precautions
BBX antibody - middle region is for research use only and not for use in diagnostic or therapeutic procedures.

BBX antibody - middle region - Protein Information

Name BBX

Synonyms HBP2

Function
Transcription factor that is necessary for cell cycle progression from G1 to S phase.

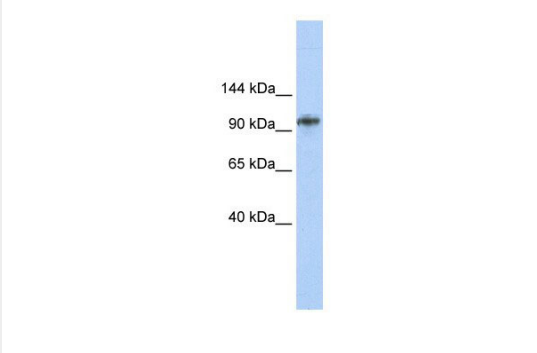

Cellular Location
Nucleus.

BBX antibody - middle region - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

BBX antibody - middle region - Images

BBX antibody - middle region (AI10081) in Human MCF-7 cells using Western Blot
WB Suggested Anti-BBX Antibody Titration: 0.2-1 µg/ml
ELISA Titer: 1:312500
Positive Control: MCF7 cell lysate

BBX antibody - middle region - Background

This is a rabbit polyclonal antibody against BBX. It was validated on Western Blot using a cell lysate as a positive control. Abgent strives to provide antibodies covering each member of a whole protein family of your interest. We also use our best efforts to provide you antibodies recognize various epitopes of a target protein. For availability of antibody needed for your experiment, please inquire (sales@abgent.com).
