

### **RARG** antibody - N-terminal region

Rabbit Polyclonal Antibody Catalog # Al10636

### **Specification**

### **RARG** antibody - N-terminal region - Product Information

Application WB
Primary Accession P13631

Other Accession NM 000966, NP 000957

Reactivity Human, Mouse, Rat, Sheep, Horse, Bovine,

Dog

Predicted Human, Mouse, Rat, Bovine, Guinea Pig,

Dog

Host Rabbit
Clonality Polyclonal
Calculated MW 50kDa KDa

# **RARG** antibody - N-terminal region - Additional Information

**Gene ID 5916** 

Alias Symbol NR1B3, RARC

**Other Names** 

Retinoic acid receptor gamma, RAR-gamma, Nuclear receptor subfamily 1 group B member 3, RARG. NR1B3

#### **Format**

Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.

#### **Reconstitution & Storage**

Add 50 ul of distilled water. Final anti-RARG antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles.

#### **Precautions**

RARG antibody - N-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.

#### **RARG** antibody - N-terminal region - Protein Information

Name RARG

Synonyms NR1B3

#### **Function**

Receptor for retinoic acid. Retinoic acid receptors bind as heterodimers to their target response elements in response to their ligands, all-trans or 9-cis retinoic acid, and regulate gene expression in various biological processes. The RAR/RXR heterodimers bind to the retinoic acid response elements (RARE) composed of tandem 5'-AGGTCA-3' sites known as DR1-DR5. In the absence of

ligand, acts mainly as an activator of gene expression due to weak binding to corepressors. Required for limb bud development. In concert with RARA or RARB, required for skeletal growth, matrix homeostasis and growth plate function (By similarity).

**Cellular Location** Nucleus. Cytoplasm

#### **Tissue Location**

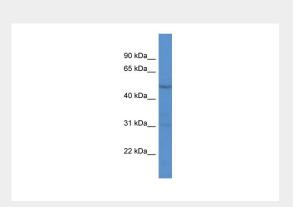

Expressed in aortic endothelial cells (at protein level).

## **RARG antibody - N-terminal region - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

### RARG antibody - N-terminal region - Images

## **WB Suggested Anti-RARG Antibody**

Titration: 1. μg/ml

Positive Control: OVCAR-3 Whole Cell

There is BioGPS gene expression data showing that RARG is expressed in OVCAR3
