

# Six1 antibody - N-terminal region

Rabbit Polyclonal Antibody Catalog # Al11450

# **Specification**

# Six1 antibody - N-terminal region - Product Information

Application IHC, WB Primary Accession 062231

Other Accession NM 009189, NP 033215

Reactivity Human, Mouse, Rat, Rabbit, Zebrafish, Pig,

Sheep, Horse, Bovine, Dog

Predicted Human, Mouse, Rat, Zebrafish, Pig,

Chicken, Sheep, Bovine, Dog

Host Rabbit
Clonality Polyclonal
Calculated MW 32kDa KDa

# Six1 antibody - N-terminal region - Additional Information

**Gene ID 20471** 

Alias Symbol BB138287

**Other Names** 

Homeobox protein SIX1, Sine oculis homeobox homolog 1, Six1

#### Format

Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.

# **Reconstitution & Storage**

Add 50 ul of distilled water. Final anti-Six1 antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles.

### **Precautions**

Six1 antibody - N-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.

# Six1 antibody - N-terminal region - Protein Information

### Name Six1

### **Function**

Transcription factor that is involved in the regulation of cell proliferation, apoptosis and embryonic development (PubMed:<a href="http://www.uniprot.org/citations/12215533" target="\_blank">12215533</a>, PubMed:<a href="http://www.uniprot.org/citations/12668636" target="\_blank">12668636</a>, PubMed:<a href="http://www.uniprot.org/citations/12834866" target="\_blank">12834866</a>, PubMed:<a href="http://www.uniprot.org/citations/14628042" target="\_blank">14628042</a>, PubMed:<a href="http://www.uniprot.org/citations/14695375" target="\_blank">14695375</a>). Plays an important role in the development of several organs,

Tel: 858.875.1900 Fax: 858.875.1999

including kidney, muscle and inner ear (PubMed:<a

href="http://www.uniprot.org/citations/12668636" target=" blank">12668636</a>, PubMed:<a href="http://www.uniprot.org/citations/12783782" target="\_blank">12783782</a>, PubMed:<a href="http://www.uniprot.org/citations/12834866" target="\_blank">12834866</a>, PubMed:<a href="http://www.uniprot.org/citations/14628042" target="blank">14628042</a>, PubMed:<a href="http://www.uniprot.org/citations/14695375" target="blank">14695375</a>). Depending on context, functions as a transcriptional repressor or activator (PubMed: <a href="http://www.uniprot.org/citations/14628042" target="\_blank">14628042</a>). Lacks an activation domain, and requires interaction with EYA family members for transcription activation (By similarity). Mediates nuclear translocation of EYA1 and EYA2 (By similarity). Binds the 5'-TCA[AG][AG]TTNC-3' motif present in the MEF3 element in the MYOG promoter and CIDEA enhancer (By similarity). Regulates the expression of numerous genes, including MYC, CCNA1, CCND1 and EZR (PubMed: <a href="http://www.uniprot.org/citations/16488997" target=" blank">16488997</a>). Acts as an activator of the IGFBP5 promoter, probably coactivated by EYA2 (PubMed: <a href="http://www.uniprot.org/citations/11978764" target=" blank">11978764</a>). Repression of precursor cell proliferation in myoblasts is switched to activation through recruitment of EYA3 to the SIX1-DACH1 complex (PubMed: <a href="http://www.uniprot.org/citations/14628042" target="\_blank">14628042</a>). During myogenesis, seems to act together with EYA2 and DACH2. Regulates the expression of CCNA1 (By similarity). Promotes brown adipocyte differentiation (PubMed:<a href="http://www.uniprot.org/citations/27923061" target=" blank">27923061</a>).

#### **Cellular Location**

Nucleus {ECO:0000250|UniProtKB:Q15475}. Cytoplasm {ECO:0000250|UniProtKB:Q15475}

#### **Tissue Location**

Expressed in phalangeal tendons and in skeletal muscle and in head and body mesenchyme

### Six1 antibody - N-terminal region - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

Rabbit Anti-Six1 Antibody Catalog Number: Al11450

Formalin Fixed Paraffin Embedded Tissue: Human Adult heart Observed Staining:

Cytoplasmic, Nuclear (very rare in Nuclear)

Primary Antibody Concentration: 1:600

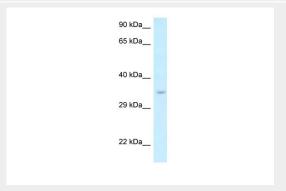

Secondary Antibody: Donkey anti-Rabbit-Cy2/3

Secondary Antibody Concentration: 1:200 Magnification: 20X

Exposure Time: 0.5 â€" 2.0 sec Protocol located in Reviews and Data.

WB Suggested Anti-Six1 Antibody Titration: 1.0  $\mu g/ml$ 

Positive Control: Mouse Kidney
