

Rap1a Antibody - middle region
Rabbit Polyclonal Antibody
Catalog # AI13915**Specification**

Rap1a Antibody - middle region - Product Information

Application	WB
Primary Accession	P62835
Other Accession	NM_145541 , NP_663516
Reactivity	Human, Mouse, Rat, Rabbit, Pig, Goat, Horse, Bovine, Guinea Pig, Dog
Predicted	Human, Mouse, Rat, Rabbit, Pig, Goat, Horse, Bovine, Guinea Pig, Dog
Host	Rabbit
Clonality	Polyclonal
Calculated MW	20kDa KDa

Rap1a Antibody - middle region - Additional Information**Gene ID** 109905**Alias Symbol** **AI848598, G-22K, Krev-1, Rap1**
Other Names
Ras-related protein Rap-1A, Ras-related protein Krev-1, Rap1a, Krev-1**Format**

Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.

Reconstitution & Storage

Add 50 ul of distilled water. Final anti-Rap1a antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles.

Precautions

Rap1a Antibody - middle region is for research use only and not for use in diagnostic or therapeutic procedures.

Rap1a Antibody - middle region - Protein Information**Name** Rap1a**Synonyms** Krev-1**Function**

Induces morphological reversion of a cell line transformed by a Ras oncogene. Counteracts the mitogenic function of Ras, at least partly because it can interact with Ras GAPs and RAF in a competitive manner. Together with ITGB1BP1, regulates KRIT1 localization to microtubules and membranes (By similarity). Plays a role in nerve growth factor (NGF)-induced neurite outgrowth. Plays a role in the regulation of embryonic blood vessel formation. Involved in the establishment of

basal endothelial barrier function. May be involved in the regulation of the vascular endothelial growth factor receptor KDR expression at endothelial cell-cell junctions.

Cellular Location

Cell membrane; Lipid-anchor. Cell junction. Cytoplasm. Cytoplasm, perinuclear region. Early endosome. Late endosome. Note=Recruited from early endosome to late endosome compartment after nerve growth factor (NGF) stimulation. Colocalized with RAPGEF2 in the perinuclear region (By similarity). Localized with RAPGEF2 at cell-cell junctions

Tissue Location

Expressed in the testis and sperm midpiece (at protein level).

Rap1a Antibody - middle region - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Rap1a Antibody - middle region - Images

Host: Rabbit
Target Name: Rap1a
Sample Tissue: Mouse Testis lysates
Antibody Dilution: 1.0µg/ml
