REN / Renin 1 Antibody
Sheep Polyclonal Antibody
Catalog # ALS11270

Specification

REN / Renin 1 Antibody - Product Information

Application	**IHC**
Primary Accession	P00797
Reactivity	**Human**
Host	**Sheep**
Clonality	**Polyclonal**
Calculated MW	**45kDa KDa**

REN / Renin 1 Antibody - Additional Information

Gene ID 5972

Other Names
Renin, 3.4.23.15, Angiotensinogenase, REN

Target/Specificity
Human renin

Reconstitution & Storage
Store at -70°C, avoid freeze/thaw cycles.

Precautions
REN / Renin 1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

REN / Renin 1 Antibody - Protein Information

Name REN

Function
Renin is a highly specific endopeptidase, whose only known function is to generate angiotensin I from angiotensinogen in the plasma, initiating a cascade of reactions that produce an elevation of blood pressure and increased sodium retention by the kidney.

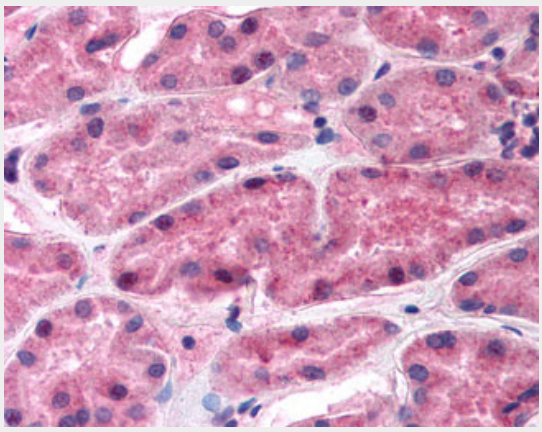

Cellular Location
Secreted. Membrane. Note=Associated to membranes via binding to ATP6AP2.

REN / Renin 1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

REN / Renin 1 Antibody - Images

Anti-REN / Renin antibody IHC of human kidney.

REN / Renin 1 Antibody - Background

Renin is a highly specific endopeptidase, whose only known function is to generate angiotensin I from angiotensinogen in the plasma, initiating a cascade of reactions that produce an elevation of blood pressure and increased sodium retention by the kidney.
