IER3 / IEX-1 Antibody (Internal) - Protein Information

Name IER3

Synonyms DIF2, IEX1, PRG1

Function

May play a role in the ERK signaling pathway by inhibiting the dephosphorylation of ERK by phosphatase PP2A-PPP2R5C holoenzyme. Acts also as an ERK downstream effector mediating survival. As a member of the NUPR1/RELB/IER3 survival pathway, may provide pancreatic ductal adenocarcinoma with remarkable resistance to cell stress, such as starvation or gemcitabine treatment.

Cellular Location Membrane; Single- pass type II membrane protein
