

SNCG / Gamma-Synuclein Antibody

Rabbit Polyclonal Antibody Catalog # ALS12582

Specification

SNCG / Gamma-Synuclein Antibody - Product Information

Application Primary Accession Reactivity Host Clonality Calculated MW IHC <u>076070</u> Human Rabbit Polyclonal 13kDa KDa

SNCG / Gamma-Synuclein Antibody - Additional Information

Gene ID 6623

Other Names Gamma-synuclein, Breast cancer-specific gene 1 protein, Persyn, Synoretin, SR, SNCG, BCSG1, PERSYN, PRSN

Target/Specificity This antibody is specific for gamma-synuclein and does not cross-react with alpha- and beta-synuclein.

Reconstitution & Storage Long term: -20°C; Short term: +4°C; Avoid freeze-thaw cycles.

Precautions SNCG / Gamma-Synuclein Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

SNCG / Gamma-Synuclein Antibody - Protein Information

Name SNCG

Synonyms BCSG1, PERSYN, PRSN

Function

Plays a role in neurofilament network integrity. May be involved in modulating axonal architecture during development and in the adult. In vitro, increases the susceptibility of neurofilament-H to calcium-dependent proteases (By similarity). May also function in modulating the keratin network in skin. Activates the MAPK and Elk-1 signal transduction pathway (By similarity).

Cellular Location

Cytoplasm, perinuclear region. Cytoplasm, cytoskeleton, microtubule organizing center, centrosome. Cytoplasm, cytoskeleton, spindle. Note=Associated with centrosomes in several interphase cells. In mitotic cells, localized to the poles of the spindle

Tissue Location

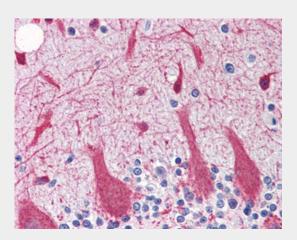

Highly expressed in brain, particularly in the substantia nigra. Also expressed in the corpus callosum, heart, skeletal muscle, ovary, testis, colon and spleen. Weak expression in pancreas, kidney and lung

SNCG / Gamma-Synuclein Antibody - Protocols

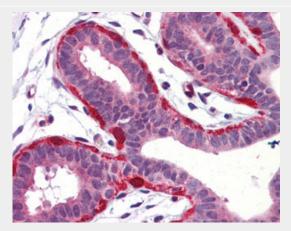

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

SNCG / Gamma-Synuclein Antibody - Images

Anti-SNCG antibody IHC of human brain, cerebellum.

Anti-SNCG antibody IHC of human breast. SNCG / Gamma-Synuclein Antibody - Background

Plays a role in neurofilament network integrity. May be involved in modulating axonal architecture

during development and in the adult. In vitro, increases the susceptibility of neurofilament-H to calcium-dependent proteases (By similarity). May also function in modulating the keratin network in skin. Activates the MAPK and Elk-1 signal transduction pathway (By similarity).
