STEAP1 / STEAP Antibody (Internal)

Rabbit Polyclonal Antibody

Catalog # ALS12974

Specification

STEAP1 / STEAP Antibody (Internal) - Product Information

Application	**IF, IHC**
Primary Accession	Q9UHE8
Reactivity	**Human, Mouse, Rat**
Host	**Rabbit**
Clonality	**Polyclonal**
Calculated MW	**40kDa KDa**

STEAP1 / STEAP Antibody (Internal) - Additional Information

Gene ID 26872

Other Names
Metalloreductase STEAP1, 1.16.1.-, Six-transmembrane epithelial antigen of prostate 1, STEAP1, PRSS24, STEAP

Target/Specificity
a 16 amino acid peptide from near the center of human STEAP1

Reconstitution & Storage
Short term 4°C, long term aliquot and store at -20°C, avoid freeze thaw cycles. Store undiluted.

Precautions
STEAP1 / STEAP Antibody (Internal) is for research use only and not for use in diagnostic or therapeutic procedures.

STEAP1 / STEAP Antibody (Internal) - Protein Information

Name STEAP1

Synonyms PRSS24, STEAP

Function
Does not function as a metalloreductase due to the absence of binding sites for the electron-donating substrate NADPH. Promotes Fe(3+) reduction when fused to the NADPH-binding domain of STEAP4.

Cellular Location
Endosome membrane {ECO:0000250|UniProtKB:Q9CWR7}; Multi-pass membrane protein. Cell membrane; Multi-pass membrane protein

Tissue Location
Ubiquitously expressed. Highly expressed in prostate tumors.

STEAP1 / STEAP Antibody (Internal) - Protocols

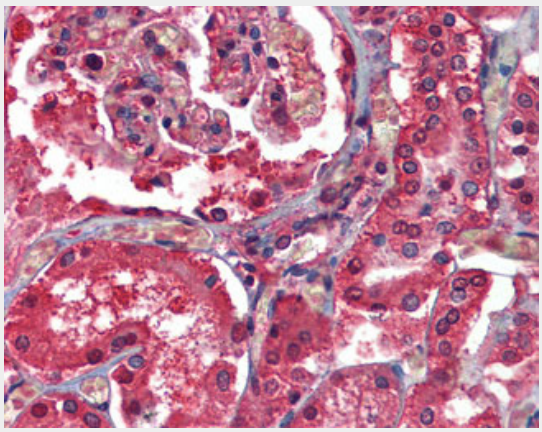

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

STEAP1 / STEAP Antibody (Internal) - Images

Immunofluorescence of STEAP1 in human spleen tissue with STEAP1 antibody at 20 ug/ml.

Anti-STEAP1 antibody IHC of human kidney.

STEAP1 / STEAP Antibody (Internal) - Background

Metalloreductase that has the ability to reduce both Fe(3+) to Fe(2+) and Cu(2+) to Cu(1+). Uses NAD(+) as acceptor (By similarity).
