

Ferritin Heavy Chain / FTH1 Antibody (clone 3F8)
Mouse Monoclonal Antibody
Catalog # ALS14843**Specification**

Ferritin Heavy Chain / FTH1 Antibody (clone 3F8) - Product Information

Application	WB
Primary Accession	P02794
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Calculated MW	21kDa KDa

Ferritin Heavy Chain / FTH1 Antibody (clone 3F8) - Additional Information**Gene ID** 2495**Other Names**

Ferritin heavy chain, Ferritin H subunit, 1.16.3.1, Cell proliferation-inducing gene 15 protein, Ferritin heavy chain, N-terminally processed, FTH1, FTH, FTHL6

Reconstitution & Storage

Short term 4°C, long term aliquot and store at -20°C, avoid freeze thaw cycles.

Precautions

Ferritin Heavy Chain / FTH1 Antibody (clone 3F8) is for research use only and not for use in diagnostic or therapeutic procedures.

Ferritin Heavy Chain / FTH1 Antibody (clone 3F8) - Protein Information**Name** FTH1**Synonyms** FTH, FTHL6**Function**

Stores iron in a soluble, non-toxic, readily available form. Important for iron homeostasis. Has ferroxidase activity (PubMed:<<http://www.uniprot.org/citations/9003196>>9003196). Iron is taken up in the ferrous form and deposited as ferric hydroxides after oxidation (PubMed:<<http://www.uniprot.org/citations/9003196>>9003196). Also plays a role in delivery of iron to cells (By similarity). Mediates iron uptake in capsule cells of the developing kidney (By similarity).

Cellular Location

Cytoplasm {ECO:0000250|UniProtKB:P19130}.

Tissue Location

Expressed in the liver.

Volume
50 µl

Ferritin Heavy Chain / FTH1 Antibody (clone 3F8) - Protocols

Provided below are standard protocols that you may find useful for product applications.
