

GJA1 / CX43 / Connexin 43 Antibody (aa333-382)
Rabbit Polyclonal Antibody
Catalog # ALS15038**Specification**

GJA1 / CX43 / Connexin 43 Antibody (aa333-382) - Product Information

Application	IF, IHC
Primary Accession	P17302
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Calculated MW	43kDa KDa

GJA1 / CX43 / Connexin 43 Antibody (aa333-382) - Additional Information**Gene ID** 2697**Other Names**

Gap junction alpha-1 protein, Connexin-43, Cx43, Gap junction 43 kDa heart protein, GJA1, GJAL

Target/Specificity

Connexin 43 Antibody detects endogenous levels of total Connexin 43 protein.

Reconstitution & Storage

Store at -20°C for up to one year.

Precautions

GJA1 / CX43 / Connexin 43 Antibody (aa333-382) is for research use only and not for use in diagnostic or therapeutic procedures.

GJA1 / CX43 / Connexin 43 Antibody (aa333-382) - Protein Information**Name** GJA1**Synonyms** GJAL**Function**

Gap junction protein that acts as a regulator of bladder capacity. A gap junction consists of a cluster of closely packed pairs of transmembrane channels, the connexons, through which materials of low MW diffuse from one cell to a neighboring cell. May play a critical role in the physiology of hearing by participating in the recycling of potassium to the cochlear endolymph. Negative regulator of bladder functional capacity: acts by enhancing intercellular electrical and chemical transmission, thus sensitizing bladder muscles to cholinergic neural stimuli and causing them to contract (By similarity). May play a role in cell growth inhibition through the regulation of NOV expression and localization. Plays an essential role in gap junction communication in the ventricles (By similarity).

Cellular Location

Cell membrane; Multi-pass membrane protein. Cell junction, gap junction. Endoplasmic reticulum {ECO:0000250|UniProtKB:P23242}. Note=Localizes at the intercalated disk (ICD) in cardiomyocytes and the proper localization at ICD is dependent on TMEM65. {ECO:0000250|UniProtKB:P23242}

Tissue Location

Expressed in the heart and fetal cochlea.

Volume

50 µl

GJA1 / CX43 / Connexin 43 Antibody (aa333-382) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
