

CRYAB / Alpha B Crystallin Antibody (aa10-59) Rabbit Polyclonal Antibody Catalog # ALS15079

Specification

CRYAB / Alpha B Crystallin Antibody (aa10-59) - Product Information

Application Primary Accession Reactivity Host Clonality Calculated MW WB, IHC <u>P02511</u> Human, Mouse, Rat Rabbit Polyclonal 20kDa KDa

CRYAB / Alpha B Crystallin Antibody (aa10-59) - Additional Information

Gene ID 1410

Other Names Alpha-crystallin B chain, Alpha(B)-crystallin, Heat shock protein beta-5, HspB5, Renal carcinoma antigen NY-REN-27, Rosenthal fiber component, CRYAB, CRYA2

Target/Specificity CRYAB Antibody detects endogenous levels of total CRYAB protein.

Reconstitution & Storage Long term: -20°C; Short term: +4°C; Avoid freeze-thaw cycles.

Precautions CRYAB / Alpha B Crystallin Antibody (aa10-59) is for research use only and not for use in diagnostic or therapeutic procedures.

CRYAB / Alpha B Crystallin Antibody (aa10-59) - Protein Information

Name CRYAB (HGNC:2389)

Synonyms CRYA2, HSPB5

Function

May contribute to the transparency and refractive index of the lens. Has chaperone-like activity, preventing aggregation of various proteins under a wide range of stress conditions. In lens epithelial cells, stabilizes the ATP6V1A protein, preventing its degradation by the proteasome (By similarity).

Cellular Location

Cytoplasm. Nucleus Secreted. Lysosome {ECO:0000250|UniProtKB:P23927}. Note=Translocates to the nucleus during heat shock and resides in sub-nuclear structures known as SC35 speckles or nuclear splicing speckles (PubMed:19464326). Localizes at the Z- bands and the intercalated disk in cardiomyocytes (PubMed:28493373) Can be secreted; the secretion is dependent on protein

unfolding and facilitated by the cargo receptor TMED10; it results in protein translocation from the cytoplasm into the ERGIC (endoplasmic reticulum- Golgi intermediate compartment) followed by vesicle entry and secretion (PubMed:32272059).

Tissue Location

Lens as well as other tissues (PubMed:838078, PubMed:2387586). Expressed in myocardial tissue (PubMed:28493373)

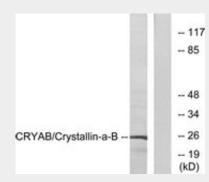

Volume 50 μl

CRYAB / Alpha B Crystallin Antibody (aa10-59) - Protocols

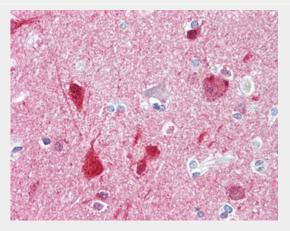

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

CRYAB / Alpha B Crystallin Antibody (aa10-59) - Images

Western blot of extracts from 293 cells, using CRYAB Antibody.

Anti-CRYAB / Alpha B Crystallin antibody IHC of human brain, cortex. CRYAB / Alpha B Crystallin Antibody (aa10-59) - Background

May contribute to the transparency and refractive index of the lens. Has chaperone-like activity, preventing aggregation of various proteins under a wide range of stress conditions.
