

CLIC4 Antibody (aa1-50)

Rabbit Polyclonal Antibody Catalog # ALS15120

Specification

CLIC4 Antibody (aa1-50) - Product Information

Application WB, IHC Primary Accession O9Y696

Reactivity Human, Mouse, Rat

Host Rabbit
Clonality Polyclonal
Calculated MW 29kDa KDa

CLIC4 Antibody (aa1-50) - Additional Information

Gene ID 25932

Other Names

Chloride intracellular channel protein 4, Intracellular chloride ion channel protein p64H1, CLIC4

Target/Specificity

CLIC4 Antibody detects endogenous levels of total CLIC4 protein.

Reconstitution & Storage

Store at -20°C for up to one year.

Precautions

CLIC4 Antibody (aa1-50) is for research use only and not for use in diagnostic or therapeutic procedures.

CLIC4 Antibody (aa1-50) - Protein Information

Name CLIC4

Function

Can insert into membranes and form poorly selective ion channels that may also transport chloride ions. Channel activity depends on the pH. Membrane insertion seems to be redox-regulated and may occur only under oxydizing conditions. Promotes cell-surface expression of HRH3. Has alternate cellular functions like a potential role in angiogenesis or in maintaining apical-basolateral membrane polarity during mitosis and cytokinesis. Could also promote endothelial cell proliferation and regulate endothelial morphogenesis (tubulogenesis).

Cellular Location

Cytoplasm, cytoskeleton, microtubule organizing center, centrosome. Cytoplasmic vesicle membrane; Single-pass membrane protein. Nucleus. Cell membrane; Single-pass membrane protein. Mitochondrion {ECO:0000250|UniProtKB:Q9Z0W7}. Cell junction. Note=Colocalized with AKAP9 at the centrosome and midbody. Exists both as soluble cytoplasmic protein and as membrane protein with probably a single transmembrane domain Present in an intracellular

vesicular compartment that likely represent trans-Golgi network vesicles. Might not be present in the nucleus of cardiac cells. {ECO:0000250|UniProtKB:Q9Z0W7, ECO:0000269|PubMed:14569596}

Tissue Location

Detected in epithelial cells from colon, esophagus and kidney (at protein level). Expression is prominent in heart, kidney, placenta and skeletal muscle.

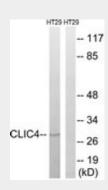

Volume 50 μl

CLIC4 Antibody (aa1-50) - Protocols

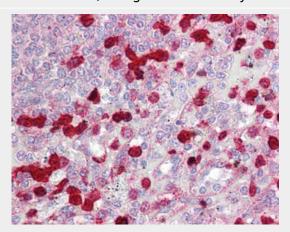

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

CLIC4 Antibody (aa1-50) - Images

Western blot of extracts from HT-29 cells, using CLIC4 Antibody.

Anti-CLIC4 antibody IHC of human spleen.
