

GOK / STIM1 Antibody (N-Terminus)
Sheep Polyclonal Antibody
Catalog # ALS16212**Specification**

GOK / STIM1 Antibody (N-Terminus) - Product Information

Application	IHC
Primary Accession	Q13586
Reactivity	Human
Host	Sheep
Clonality	Polyclonal
Calculated MW	77kDa KDa

GOK / STIM1 Antibody (N-Terminus) - Additional Information**Gene ID** 6786**Other Names**

Stromal interaction molecule 1, STIM1, GOK

Target/Specificity

BLAST analysis suggests cross-reactivity with rat and mouse based on 100% sequence homology.

Reconstitution & Storage

Short term 4°C, long term aliquot and store at -20°C, avoid freeze thaw cycles. Centrifuge product before removing cap. Only dilute immediately prior to use.

Precautions

GOK / STIM1 Antibody (N-Terminus) is for research use only and not for use in diagnostic or therapeutic procedures.

GOK / STIM1 Antibody (N-Terminus) - Protein Information**Name** STIM1**Synonyms** GOK {ECO:0000303|PubMed:9377559}**Function**

Plays a role in mediating store-operated Ca^{2+} entry (SOCE), a Ca^{2+} influx following depletion of intracellular Ca^{2+} stores (PubMed: [15866891](http://www.uniprot.org/citations/15866891)), PubMed: [16005298](http://www.uniprot.org/citations/16005298), PubMed: [16208375](http://www.uniprot.org/citations/16208375), PubMed: [16537481](http://www.uniprot.org/citations/16537481), PubMed: [16733527](http://www.uniprot.org/citations/16733527), PubMed: [16766533](http://www.uniprot.org/citations/16766533), PubMed: [16807233](http://www.uniprot.org/citations/16807233), PubMed: [18854159](http://www.uniprot.org/citations/18854159), PubMed: [19249086](http://www.uniprot.org/citations/19249086)

target="_blank">19249086, PubMed:22464749, PubMed:24069340, PubMed:24351972, PubMed:24591628, PubMed:26322679, PubMed:25326555, PubMed:28219928). Acts as a Ca(2+) sensor in the endoplasmic reticulum via its EF-hand domain. Upon Ca(2+) depletion, translocates from the endoplasmic reticulum to the plasma membrane where it activates the Ca(2+) release- activated Ca(2+) (CRAC) channel subunit ORAI1 (PubMed:16208375, PubMed:16537481). Involved in enamel formation (PubMed:24621671). Activated following interaction with STIMATE, leading to promote STIM1 conformational switch (PubMed:26322679).

Cellular Location

Cell membrane; Single-pass type I membrane protein. Endoplasmic reticulum membrane; Single-pass type I membrane protein. Cytoplasm, cytoskeleton. Sarcoplasmic reticulum.

Note=Translocates from the endoplasmic reticulum to the cell membrane in response to a depletion of intracellular calcium and is detected at punctae corresponding to junctions between the endoplasmic reticulum and the cell membrane (PubMed:19249086, PubMed:16005298, PubMed:16208375, PubMed:18854159) Associated with the microtubule network at the growing distal tip of microtubules (PubMed:19632184). Colocalizes with ORAI1 at the cell membrane (PubMed:27185316). Colocalizes preferentially with CASQ1 at endoplasmic reticulum in response to a depletion of intracellular calcium (PubMed:27185316).

Tissue Location

Ubiquitously expressed in various human primary cells and tumor cell lines.

Volume

50 µl

GOK / STIM1 Antibody (N-Terminus) - Protocols

Provided below are standard protocols that you may find useful for product applications.
