

Phospho Ser477 Che-1 (AATF) Antibody
Affinity purified rabbit polyclonal antibody
Catalog # AN1243

Specification

Phospho Ser477 Che-1 (AATF) Antibody - Product Information

Application	WB
Primary Accession	Q9NY61
Reactivity	Human
Predicted	Bovine, Mouse, Monkey, Rat, Xenopus
Host	Rabbit
Clonality	polyclonal
Calculated MW	66 KDa

Phospho Ser477 Che-1 (AATF) Antibody - Additional Information

Gene ID	26574
Gene Name	AATF
Other Names	
Protein AATF, Apoptosis-antagonizing transcription factor, Rb-binding protein Che-1, AATF, CHE1, DED	

Target/Specificity

Synthetic phospho-peptide corresponding to amino acid residues surrounding Ser477 conjugated to KLH.

Dilution

WB~~ 1:1000

Format

Prepared from rabbit serum by affinity purification via sequential chromatography on phospho- and dephosphopeptide affinity columns.

Antibody Specificity

Specific for the ~66k Che-1 protein phosphorylated at Ser477. Immunolabeling is blocked by preadsorption of antibody with the phospho-peptide that was used to generate the antibody but not by the corresponding dephospho-peptide.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Phospho Ser477 Che-1 (AATF) Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping

Blue Ice

Phospho Ser477 Che-1 (AATF) Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Phospho Ser477 Che-1 (AATF) Antibody - Images

Western blot of HeLa lysate showing specific immunolabeling of the ~66k Che-1 protein phosphorylated at Ser477. The phosphospecificity is shown in the second lane where immunoreactivity is blocked by preadsorption with the phospho-peptide (Peptide) used as antigen but not by the dephosphopeptide (not shown).

Phospho Ser477 Che-1 (AATF) Antibody - Background

Che-1, also known as AATF (apoptosis-antagonizing transcription factor), is a RNA polymerase II-binding protein involved in regulating the transcription factor E2F and promoting cell cycle progression (Burgdorf et al., 2004). It has been suggested that Che-1 may act as a neuroprotective factor against Abeta-induced apoptosis by suppressing the production of reactive oxidative species (Xie et al., 2004). The checkpoint kinase Chk2 has been shown to phosphorylate Che-1 at Ser477 contributing to the maintenance of the G2/M checkpoint induced by DNA damage (Bruno et al., 2006).
