|-------------------|------------------------------------------------------|
| Application       | WB, IHC-P,E                                          |
| Primary Accession | <a href="#">Q13586</a>                               |
| Other Accession   | <a href="#">P70302</a> , <a href="#">NP_003147.2</a> |
| Reactivity        | Human                                                |
| Predicted         | Mouse                                                |
| Host              | Rabbit                                               |
| Clonality         | Polyclonal                                           |
| Isotype           | Rabbit IgG                                           |
| Calculated MW     | 77423                                                |
| Antigen Region    | 509-538                                              |

**STIM1 Antibody (C-term) - Additional Information****Gene ID** 6786**Other Names**

Stromal interaction molecule 1, STIM1, GOK

**Target/Specificity**

This STIM1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 509-538 amino acids from the C-terminal region of human STIM1.

**Dilution**

WB~~1:1000

IHC-P~~1:50~100

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

STIM1 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

**STIM1 Antibody (C-term) - Protein Information****Name** STIM1

**Synonyms** GOK {ECO:0000303|PubMed:9377559}

**Function** Plays a role in mediating store-operated  $\text{Ca}^{2+}$  entry (SOCE), a  $\text{Ca}^{2+}$  influx following depletion of intracellular  $\text{Ca}^{2+}$  stores (PubMed:[15866891](#), PubMed:[16005298](#), PubMed:[16208375](#), PubMed:[16537481](#), PubMed:[16733527](#), PubMed:[16766533](#), PubMed:[16807233](#), PubMed:[18854159](#), PubMed:[19249086](#), PubMed:[22464749](#), PubMed:[24069340](#), PubMed:[24351972](#), PubMed:[24591628](#), PubMed:[26322679](#), PubMed:[25326555](#), PubMed:[28219928](#)). Acts as a  $\text{Ca}^{2+}$  sensor in the endoplasmic reticulum via its EF-hand domain. Upon  $\text{Ca}^{2+}$  depletion, translocates from the endoplasmic reticulum to the plasma membrane where it activates the  $\text{Ca}^{2+}$  release-activated  $\text{Ca}^{2+}$  (CRAC) channel subunit ORAI1 (PubMed:[16208375](#), PubMed:[16537481](#)). Involved in enamel formation (PubMed:[24621671](#)). Activated following interaction with STIMATE, leading to promote STIM1 conformational switch (PubMed:[26322679](#)).

#### Cellular Location

Cell membrane; Single-pass type I membrane protein. Endoplasmic reticulum membrane; Single-pass type I membrane protein. Cytoplasm, cytoskeleton. Sarcoplasmic reticulum.

Note=Translocates from the endoplasmic reticulum to the cell membrane in response to a depletion of intracellular calcium and is detected at punctae corresponding to junctions between the endoplasmic reticulum and the cell membrane (PubMed:[19249086](#), PubMed:[16005298](#), PubMed:[16208375](#), PubMed:[18854159](#)) Associated with the microtubule network at the growing distal tip of microtubules (PubMed:[19632184](#)). Colocalizes with ORAI1 at the cell membrane (PubMed:[27185316](#)). Colocalizes preferentially with CASQ1 at endoplasmic reticulum in response to a depletion of intracellular calcium (PubMed:[27185316](#)).

#### Tissue Location

Ubiquitously expressed in various human primary cells and tumor cell lines.

#### STIM1 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

#### STIM1 Antibody (C-term) - Images

STIM1 Antibody (C-term) (Cat. #AP10114b) western blot analysis in CEM cell line lysates (35ug/lane). This demonstrates the STIM1 antibody detected the STIM1 protein (arrow).

STIM1 Antibody (C-term) (Cat. #AP10114b) immunohistochemistry analysis in formalin fixed and paraffin embedded human kidney tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of the STIM1 Antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.

### STIM1 Antibody (C-term) - Background

This gene encodes a type 1 transmembrane protein that mediates  $\text{Ca}^{2+}$  influx after depletion of intracellular  $\text{Ca}^{2+}$  stores by gating of store-operated  $\text{Ca}^{2+}$  influx channels (SOCs). It is one of several genes located in the imprinted gene domain of 11p15.5, an important tumor-suppressor gene region. Alterations in this region have been associated with the Beckwith-Wiedemann syndrome, Wilms tumor, rhabdomyosarcoma, adrenocortical carcinoma, and lung, ovarian, and breast cancer. This gene may play a role in malignancies and disease that involve this region, as well as early hematopoiesis, by mediating attachment to stromal cells. This gene is oriented in a head-to-tail configuration with the ribonucleotide reductase 1 gene (RRM1), with the 3' end of this gene situated 1.6 kb from the 5' end of the RRM1 gene.
