

## VSGP/F-spondin Antibody (N-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP12414a

## Specification

# VSGP/F-spondin Antibody (N-term) - Product Information

Application Primary Accession Other Accession Reactivity Predicted Host Clonality Isotype Antigen Region WB, IHC-P,E <u>O9HCB6</u> <u>O9GLX9</u>, <u>NP\_006099.2</u> Human, Mouse Bovine Rabbit Polyclonal Rabbit IgG 15-43

## VSGP/F-spondin Antibody (N-term) - Additional Information

Gene ID 10418

# **Other Names** Spondin-1, F-spondin, Vascular smooth muscle cell growth-promoting factor, SPON1, KIAA0762, VSGP

## Target/Specificity

This VSGP/F-spondin antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 15-43 amino acids from the N-terminal region of human VSGP/F-spondin.

**Dilution** WB~~1:1000 IHC-P~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

#### Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

#### **Precautions**

VSGP/F-spondin Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

## VSGP/F-spondin Antibody (N-term) - Protein Information

Name SPON1

## Synonyms KIAA0762, VSGP

**Function** Cell adhesion protein that promotes the attachment of spinal cord and sensory neuron cells and the outgrowth of neurites in vitro. May contribute to the growth and guidance of axons in both the spinal cord and the PNS (By similarity). Major factor for vascular smooth muscle cell.

**Cellular Location** Secreted, extracellular space, extracellular matrix

**Tissue Location** Highest expression in lung, lower expression in brain, heart, kidney, liver and testis, and lowest expression in pancreas, skeletal muscle and ovary. Not expressed in spleen

## VSGP/F-spondin Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

VSGP/F-spondin Antibody (N-term) - Images

All lanes : Anti-VSGP/F-spondin Antibody (N-term) at 1:2000 dilution Lane 1: Human heart lysate Lane 2: Human lung lysate Lane 3: Mouse lung lysate Lysates/proteins at 20  $\mu$ g per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 91 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

VSGP/F-spondin Antibody (N-term) (Cat. #AP12414a) western blot analysis in mouse kidney tissue lysates (35ug/lane). This demonstrates the VSGP/F-spondin antibody detected the VSGP/F-spondin protein (arrow).

VSGP/F-spondin Antibody (N-term) (Cat. #AP12414a)immunohistochemistry analysis in formalin fixed and paraffin embedded human brain tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of VSGP/F-spondin Antibody (N-term) for immunohistochemistry. Clinical relevance has not been evaluated.

## VSGP/F-spondin Antibody (N-term) - Background

Cell adhesion protein that promotes the attachment of spinal cord and sensory neuron cells and the outgrowth of neurites in vitro. May contribute to the growth and guidance of axons in both the spinal cord and the PNS (By similarity). Major factor for vascular smooth muscle cell.
