

#### **CBR3 Antibody (C-term)**

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP12881B

### **Specification**

## CBR3 Antibody (C-term) - Product Information

Application WB, FC, E **Primary Accession** 075828 Other Accession NP 001227.1 Reactivity Human Host **Rabbit** Clonality **Polyclonal** Isotype Rabbit IgG Calculated MW 30850 Antigen Region 195-224

### CBR3 Antibody (C-term) - Additional Information

#### Gene ID 874

#### **Other Names**

Carbonyl reductase [NADPH] 3, NADPH-dependent carbonyl reductase 3, CBR3

#### Target/Specificity

This CBR3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 195-224 amino acids from the C-terminal region of human CBR3.

# **Dilution**

WB~~1:1000 FC~~1:10~50

#### **Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

#### **Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

### **Precautions**

CBR3 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

### CBR3 Antibody (C-term) - Protein Information

# Name CBR3 (<u>HGNC:1549</u>)

Function Catalyzes the NADPH-dependent reduction of carbonyl compounds to their

corresponding alcohols (PubMed:<u>18493841</u>). Has low NADPH- dependent oxidoreductase activity. Acts on several orthoquinones, acts as well on non-quinone compounds, such as isatin or on the anticancer drug oracin (PubMed:<u>18493841</u>, PubMed:<u>15537833</u>, PubMed:<u>19841672</u>). Best substrates for CBR3 is 1,2- naphthoquinone, hence could play a role in protection against cytotoxicity of exogenous quinones (PubMed:<u>19841672</u>). Exerts activity toward ortho-quinones but not paraquinones. No endogenous substrate for CBR3 except isatin has been identified (PubMed:<u>19841672</u>).

# Cellular Location Cytoplasm.

#### **Tissue Location**

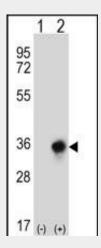

Detected in ovary, pancreas, intestine, colon, kidney, brain, thymus, lung, heart, liver, spleen, leukocyte, prostate and testis.

# CBR3 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

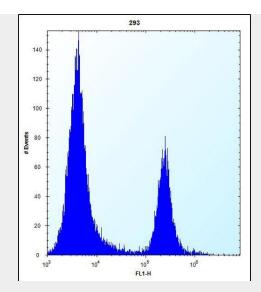

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- <u>Immunofluorescence</u>
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

## CBR3 Antibody (C-term) - Images

Western blot analysis of CBR3 (arrow) using rabbit polyclonal CBR3 Antibody (C-term) (Cat. #AP12881b). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected (Lane 2) with the CBR3 gene.

CBR3 Antibody (C-term) (Cat. #AP12881b) flow cytometric analysis of 293 cells (right histogram) compared to a negative control cell (left histogram).FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

# CBR3 Antibody (C-term) - Background

Carbonyl reductase 3 catalyzes the reduction of a large number of biologically and pharmacologically active carbonyl compounds to their corresponding alcohols. The enzyme is classified as a monomeric NADPH-dependent oxidoreductase. CBR3 contains three exons spanning 11.2 kilobases and is closely linked to another carbonyl reductase gene - CBR1.
