

LDB1 Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP14866B

Specification

LDB1 Antibody (C-term) - Product Information

Application	WB,E
Primary Accession	Q86U70
Other Accession	P70060 , P70662 , O42252 , O73715 , NP_001106878.1 , NP_003884.1
Reactivity	Human
Predicted	Zebrafish, Chicken, Mouse, Xenopus
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	46533
Antigen Region	351-379

LDB1 Antibody (C-term) - Additional Information

Gene ID 8861

Other Names

LIM domain-binding protein 1, LDB-1, Carboxyl-terminal LIM domain-binding protein 2, CLIM-2, LIM domain-binding factor CLIM2, hLdb1, Nuclear LIM interactor, LDB1, CLIM2

Target/Specificity

This LDB1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 351-379 amino acids from the C-terminal region of human LDB1.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

LDB1 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

LDB1 Antibody (C-term) - Protein Information

Name LDB1

Synonyms CLIM2

Function Binds to the LIM domain of a wide variety of LIM domain- containing transcription factors. May regulate the transcriptional activity of LIM-containing proteins by determining specific partner interactions. Plays a role in the development of interneurons and motor neurons in cooperation with LHX3 and ISL1. Acts synergistically with LHX1/LIM1 in axis formation and activation of gene expression. Acts with LMO2 in the regulation of red blood cell development, maintaining erythroid precursors in an immature state.

Cellular Location

Nucleus {ECO:0000250|UniProtKB:P70662}. Note=Colocalizes with SLK at leading edges {ECO:0000250|UniProtKB:P70662}

Tissue Location

Expressed in a wide range of adult tissues including brain, heart, skeletal muscle, colon, thymus, spleen, kidney, liver, small intestine, lung and peripheral blood leukocytes

LDB1 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

LDB1 Antibody (C-term) - Images

LDB1 Antibody (C-term) (Cat. #AP14866b) western blot analysis in ZR-75-1 cell line lysates (35ug/lane). This demonstrates the LDB1 antibody detected the LDB1 protein (arrow).

LDB1 Antibody (C-term) - Background

LDB1 binds to the LIM domain of a wide variety of LIM domain-containing transcription factors. May regulate the transcriptional activity of LIM-containing proteins by determining specific partner interactions. May play a role in the development of motor neurons. Acts synergistically with

LHX1/LIM1 in axis formation and activation of gene expression. Acts with LMO2 in the regulation of red blood cell development, maintaining erythroid precursors in an immature state (By similarity).
