

CPS1 Antibody (N-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP16053a**Specification**

CPS1 Antibody (N-term) - Product Information

Application	WB,E
Primary Accession	P31327
Other Accession	NP_001116105.1 , NP_001866.2 , NP_001116106.1
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Antigen Region	262-291

CPS1 Antibody (N-term) - Additional Information**Gene ID** 1373**Other Names**

Carbamoyl-phosphate synthase [ammonia], mitochondrial, Carbamoyl-phosphate synthetase I, CPSase I, CPS1

Target/Specificity

This CPS1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 262-291 amino acids from the N-terminal region of human CPS1.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CPS1 Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

CPS1 Antibody (N-term) - Protein Information**Name** CPS1**Function** Involved in the urea cycle of ureotelic animals where the enzyme plays an important

role in removing excess ammonia from the cell.

Cellular Location

Mitochondrion. Nucleus, nucleolus. Cell membrane {ECO:0000250|UniProtKB:Q8C196}; Peripheral membrane protein; Extracellular side {ECO:0000250|UniProtKB:Q8C196} Note=Localizes to the cell surface of hepatocytes {ECO:0000250|UniProtKB:Q8C196}

Tissue Location

Primarily in the liver and small intestine.

CPS1 Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

CPS1 Antibody (N-term) - Images

CPS1 Antibody (N-term) (Cat. #AP16053a) western blot analysis in HeLa cell line lysates (35ug/lane). This demonstrates the CPS1 antibody detected the CPS1 protein (arrow).

CPS1 Antibody (N-term) - Background

The mitochondrial enzyme encoded by this gene catalyzes synthesis of carbamoyl phosphate from ammonia and bicarbonate. This reaction is the first committed step of the urea cycle, which is important in the removal of excess urea from cells. The encoded protein may also represent a core mitochondrial nucleoid protein. Three transcript variants encoding different isoforms have been found for this gene. The shortest isoform may not be localized to the mitochondrion. Mutations in this gene have been associated with carbamoyl phosphate synthetase deficiency, susceptibility to persistent pulmonary hypertension, and susceptibility to

venoocclusive disease after bone marrow transplantation.
