

NUDC Antibody (Center)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP16056c**Specification**

NUDC Antibody (Center) - Product Information

Application	WB,E
Primary Accession	O9Y266
Other Accession	NP_006591.1
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	38243
Antigen Region	105-133

NUDC Antibody (Center) - Additional Information**Gene ID** 10726**Other Names**

Nuclear migration protein nudC, Nuclear distribution protein C homolog, NUDC

Target/Specificity

This NUDC antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 105-133 amino acids from the Central region of human NUDC.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

NUDC Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.

NUDC Antibody (Center) - Protein Information**Name** NUDC**Function** Plays a role in neurogenesis and neuronal migration (By similarity). Necessary for correct formation of mitotic spindles and chromosome separation during mitosis

(PubMed:[12852857](#), PubMed:[12679384](#), PubMed:[25789526](#)). Necessary for cytokinesis and cell proliferation (PubMed:[12852857](#), PubMed:[12679384](#)).

Cellular Location

Cytoplasm, cytoskeleton. Nucleus. Cytoplasm, cytoskeleton, spindle. Midbody Note=In a filamentous pattern adjacent to the nucleus of migrating cerebellar granule cells. Colocalizes with tubulin and dynein and with the microtubule organizing center. Distributed throughout the cytoplasm of non-migrating cells. A small proportion is nuclear, in a punctate pattern. Localizes to the mitotic spindle in a EML4-dependent manner (PubMed:25789526).

Tissue Location

Ubiquitous. Highly expressed in fetal liver, kidney, lung and brain. Highly expressed in adult pancreas, kidney, skeletal muscle, liver, lung, placenta, prostate, brain and heart

NUDC Antibody (Center) - Protocols

Provided below are standard protocols that you may find useful for product applications.

NUDC Antibody (Center) - Images

NUDC Antibody (Center) (Cat. #AP16056c) western blot analysis in 293 cell line lysates (35ug/lane). This demonstrates the NUDC antibody detected the NUDC protein (arrow).

NUDC Antibody (Center) - Background

NudC was first identified as a regulator of nuclear movement in the asexual reproductive cycle of the filamentous fungus *Aspergillus nidulans*. Human NUDC is a nuclear movement protein that associates with dynein (see DYNC1H1; MIM 600112) (Aumais et al., 2003 [PubMed 12679384]).
