

Mouse Gpi Antibody(C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP19643b

Specification

Mouse Gpi Antibody(C-term) - Product Information

Application	WB,E
Primary Accession	P06745
Other Accession	NP_032181.2
Reactivity	Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	62767
Antigen Region	532-558

Mouse Gpi Antibody(C-term) - Additional Information

Gene ID 14751

Other Names

Glucose-6-phosphate isomerase, GPI, Autocrine motility factor, AMF, Neuroleukin, NLK, Phosphoglucose isomerase, PGI, Phosphohexose isomerase, PHI, Gpi, Gpi1

Target/Specificity

This Mouse Gpi antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 532-558 amino acids from the C-terminal region of mouse Gpi.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Mouse Gpi Antibody(C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

Mouse Gpi Antibody(C-term) - Protein Information

Name Gpi {ECO:0000303|PubMed:7545951}

Function In the cytoplasm, catalyzes the conversion of glucose-6- phosphate to

fructose-6-phosphate, the second step in glycolysis, and the reverse reaction during gluconeogenesis (PubMed:[7277315](#), PubMed:[2344351](#), PubMed:[8417789](#)). Besides it's role as a glycolytic enzyme, also acts as a secreted cytokine: acts as an angiogenic factor (AMF) that stimulates endothelial cell motility (By similarity). Acts as a neurotrophic factor, neuroleukin, for spinal and sensory neurons (PubMed:[3764429](#), PubMed:[3352745](#)). It is secreted by lectin-stimulated T-cells and induces immunoglobulin secretion (PubMed:[3352745](#)).

Cellular Location

Cytoplasm {ECO:0000250|UniProtKB:P06744}. Secreted {ECO:0000250|UniProtKB:P06744}

Mouse Gpi Antibody(C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

Mouse Gpi Antibody(C-term) - Images

Mouse Gpi Antibody (C-term) (Cat. #AP19643b) western blot analysis in mouse heart tissue lysates (35ug/lane). This demonstrates the Mouse Gpi antibody detected the Mouse Gpi protein (arrow).

Mouse Gpi Antibody(C-term) - Background

Besides it's role as a glycolytic enzyme, mammalian GPI can function as a tumor-secreted cytokine and an angiogenic factor (AMF) that stimulates endothelial cell motility. GPI is also a neurotrophic factor (Neuroleukin) for spinal and sensory neurons.
