

CYP20A1 Antibody (C-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP7453b**Specification**

CYP20A1 Antibody (C-term) - Product Information

Application	WB, IHC-P, FC,E
Primary Accession	Q6UW02
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	52432
Antigen Region	364-392

CYP20A1 Antibody (C-term) - Additional Information**Gene ID** 57404**Other Names**

Cytochrome P450 20A1, 114--, CYP20A1

Target/Specificity

This CYP20A1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 364-392 amino acids from the C-terminal region of human CYP20A1.

Dilution

WB~~1:1000
IHC-P~~1:50~100
FC~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

CYP20A1 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

CYP20A1 Antibody (C-term) - Protein Information**Name** CYP20A1**Cellular Location**

Membrane; Single-pass membrane protein

CYP20A1 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

CYP20A1 Antibody (C-term) - Images

Western blot analysis of CYP20A1 (arrow) using rabbit polyclonal CYP20A1 Antibody (C-term) (Cat.#AP7453b). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected with the CYP20A1 gene (Lane 2) (Origene Technologies).

Formalin-fixed and paraffin-embedded human hepatocarcinoma with CYP20A1 Antibody (C-term), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.

Flow cytometric analysis of NCI-H292 cells using CYP20A1 Antibody (C-term)(bottom histogram) compared to a negative control cell (top histogram). FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

CYP20A1 Antibody (C-term) - Background

CYP20A1 is a member of the cytochrome P450 superfamily of enzymes. The cytochrome P450 proteins are monooxygenases that catalyze many reactions involved in drug metabolism and synthesis of cholesterol, steroids and other lipids. The protein lacks one amino acid of the conserved heme binding site. It also lacks the conserved I-helix motif AGX(D,E)T, suggesting that its substrate may carry its own oxygen.
