

DUSP2 Antibody (C-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP9084B**Specification**

DUSP2 Antibody (C-term) - Product Information

Application	WB, FC,E
Primary Accession	Q05923
Other Accession	Q05922
Reactivity	Human, Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	34400
Antigen Region	262-290

DUSP2 Antibody (C-term) - Additional Information**Gene ID** 1844**Other Names**

Dual specificity protein phosphatase 2, Dual specificity protein phosphatase PAC-1, DUSP2, PAC1

Target/Specificity

This DUSP2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 262-290 amino acids from the C-terminal region of human DUSP2.

Dilution

WB~~1:1000

FC~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

DUSP2 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

DUSP2 Antibody (C-term) - Protein Information**Name** DUSP2 ([HGNC:3068](#))**Synonyms** PAC1

Function Dephosphorylates both phosphorylated Thr and Tyr residues in MAPK1, and dephosphorylation of phosphotyrosine is slightly faster than that of phosphothreonine (PubMed:[8107850](#)). Can dephosphorylate MAPK1 (By similarity).

Cellular Location

Nucleus.

Tissue Location

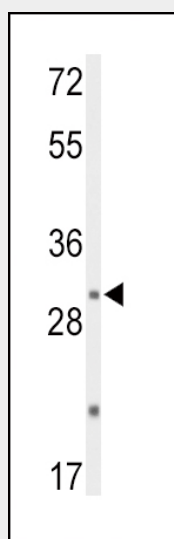

Expressed in hematopoietic tissues.

DUSP2 Antibody (C-term) - Protocols

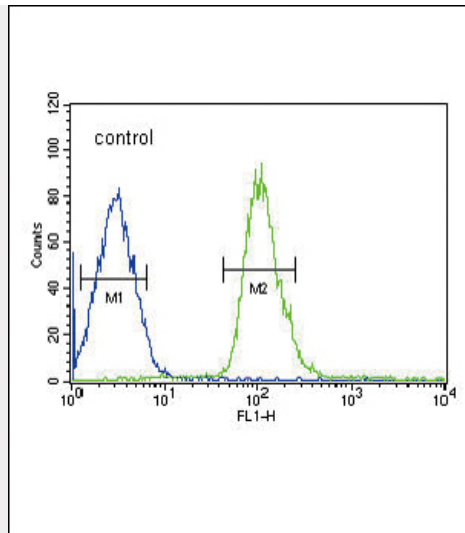

Provided below are standard protocols that you may find useful for product applications.

DUSP2 Antibody (C-term) - Images

Western blot analysis of DUSP2 Antibody (C-term) (Cat. #AP9084b) in mouse liver tissue lysates (35ug/lane). DUSP2 (arrow) was detected using the purified Pab.

DUSP2 Antibody (C-term) (Cat. #AP9084b) flow cytometric analysis of HepG2 cells (right histogram) compared to a negative control cell (left histogram). FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

DUSP2 Antibody (C-term) - Background

DUSP2 is a member of the dual specificity protein phosphatase subfamily. These phosphatases inactivate their target kinases by dephosphorylating both the phosphoserine/threonine and phosphotyrosine residues. They negatively regulate members of the mitogen-activated protein (MAP) kinase superfamily (MAPK/ERK, SAPK/JNK, p38), which are associated with cellular proliferation and differentiation. Different members of the family of dual specificity phosphatases show distinct substrate specificities for various MAP kinases, different tissue distribution and subcellular localization, and different modes of inducibility of their expression by extracellular stimuli.
