

# RNASET2 Antibody

Catalog # ASC11454

# Specification

# **RNASET2** Antibody - Product Information

Application Primary Accession Other Accession Reactivity Host Clonality Isotype Application Notes WB, ICC, IF <u>O00584</u> NP\_003721, <u>5231228</u> Human, Mouse, Rat Rabbit Polyclonal IgG RNASET2 antibody can be used for detection of FOXRED2 by Western blot at 1 μg/mL.

# **RNASET2** Antibody - Additional Information

Gene ID Target/Specificity RNASET2; 8635

# **Reconstitution & Storage**

RNASET2 antibody can be stored at 4°C for three months and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.

#### Precautions

RNASET2 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# **RNASET2** Antibody - Protein Information

Name RNASET2

Synonyms RNASE6PL

#### Function

Ribonuclease that plays an essential role in innate immune response by recognizing and degrading RNAs from microbial pathogens that are subsequently sensed by TLR8 (PubMed:<a href="http://www.uniprot.org/citations/31778653" target="\_blank">31778653</a>). Cleaves preferentially single-stranded RNA molecules between purine and uridine residues, which critically contributes to the supply of catabolic uridine and the generation of purine-2',3'-cyclophosphate-terminated oligoribonucleotides (PubMed:<a

href="http://www.uniprot.org/citations/31778653" target="\_blank">31778653</a>). In turn, RNase T2 degradation products promote the RNA-dependent activation of TLR8 (PubMed:<a href="http://www.uniprot.org/citations/31778653" target="\_blank">31778653</a>). In turn, RNase T2 degradation of TLR8 (PubMed:<a href="http://www.uniprot.org/citations/31778653" target="\_blank">31778653</a>). In turn, RNase T2 degradation of TLR8 (PubMed:<a href="http://www.uniprot.org/citations/31778653" target="\_blank">31778653</a>). Also plays a key role in degradation of mitochondrial RNA and processing of non-coding RNA imported from the cytosol into mitochondria (PubMed:<a href="http://www.uniprot.org/citations/28730546"

target="\_blank">28730546</a>, PubMed:<a href="http://www.uniprot.org/citations/30184494" target="\_blank">30184494</a>). Participates as well in degradation of mitochondrion-associated cytosolic rRNAs (PubMed:<a href="http://www.uniprot.org/citations/30385512" target="\_blank">30385512</a>).

**Cellular Location** 

Secreted. Lysosome lumen. Endoplasmic reticulum lumen. Mitochondrion intermembrane space. Note=Full-length RNASET2 is found in the endoplasmic reticulum while smaller RNASET2 proteolytic products are found in the lysosome fraction.

#### **Tissue Location**

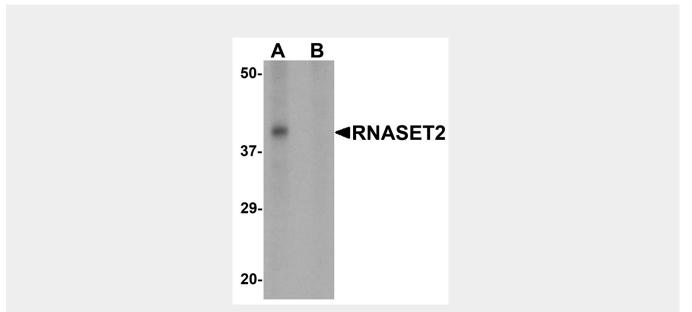

Ubiquitous. Higher expression levels observed in the temporal lobe and fetal brain.

### **RNASET2** Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

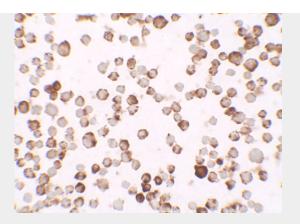

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

### **RNASET2** Antibody - Images

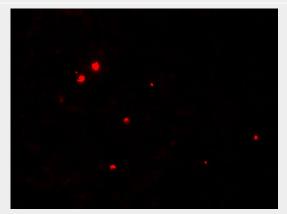

Western blot analysis of RNASET2 in SW480 cell lysate with RNASET2 antibody at 1  $\mu$ g/mL in (A) the absence and (B) the presence of blocking peptide.

Immunocytochemistry of RNASET2 in SW480 cells with RNASET2 antibody at 2.5  $\mu$ g/ml.

Immunofluorescence of RNASET2 in SW480 cells with RNASET2 antibody at 5  $\mu$ g/ml.

# RNASET2 Antibody - Background

RNASET2 Antibody: RNASET2 is a novel member of the Rh/T2/S-glycoprotein class of extracellular ribonucleases. It is a single copy gene that maps to 6q27, a region associated with human malignancies and chromosomal rearrangement, and has been suggested to function as a tumor suppressor protein. Its expression is suppressed in Human T-cell Leukemia Virus type 1 (HTLV-1) infected cells following the binding of the HTLV-1 Tax protein to the RNASET2 promoter. As Adult T-cell leukemia (ATL) is one of the primary diseases caused by HTLV-1 infection, a reduction in the level of RNASET2 by Tax may play a role in ATL development.
