

Sheep IgG Rhodamine
Catalog # ASR1033**Specification**

Sheep IgG Rhodamine - Product Information

Description	SHEEP IgG whole molecule Rhodamine conjugated
Conjugate	Rhodamine (TRITC)
Physical State	Lyophilized
Host Isotype	IgG
Buffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Species of Origin	Sheep
Reconstitution Volume	1.0 mL
Reconstitution Buffer	Restore with deionized water (or equivalent)

Sheep IgG Rhodamine - Additional Information**Shipping Condition**

Ambient

Purity

This product was prepared from normal serum by delipidation, salt fractionation, ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Sheep IgG and anti-Sheep Serum.

Storage Condition

Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Precautions Note

This product is for research use only and is not intended for therapeutic or diagnostic applications.

Sheep IgG Rhodamine - Protein Information**Sheep IgG Rhodamine - Protocols**

Provided below are standard protocols that you may find useful for product applications.
