

**Anti-Mouse IgG F(c) Secondary Antibody**  
**Rabbit Polyclonal, Unconjugated**  
**Catalog # ASR1619****Specification****Anti-Mouse IgG F(c) Secondary Antibody - Product Information**

|                  |                                                                                                          |
|------------------|----------------------------------------------------------------------------------------------------------|
| Description      | <b>Anti-MOUSE IgG F(c) (RABBIT) Antibody</b>                                                             |
| Host             | <b>Rabbit</b>                                                                                            |
| Conjugate        | <b>Unconjugated</b>                                                                                      |
| Target Species   | <b>Mouse</b>                                                                                             |
| Reactivity       | <b>Mouse</b>                                                                                             |
| Clonality        | <b>Polyclonal</b>                                                                                        |
| Application      | <b>,1,10,15,</b>                                                                                         |
| Application Note | <b>ELISA 1:40,000-1:180,000;Western Blot 1:2,000-1:10,000;Immunochemistry 1:1,000-1:5,000</b>            |
| Physical State   | <b>Liquid (sterile filtered)</b>                                                                         |
| Host Isotype     | <b>IgG</b>                                                                                               |
| Target Isotype   | <b>IgG F(c)</b>                                                                                          |
| Buffer           | <b>0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2</b>                                        |
| Immunogen        | <b>Anti-Mouse IgG F(c) was produced by repeated immunization with mouse IgG F(c) fragment in rabbit.</b> |
| Stabilizer       | <b>None</b>                                                                                              |
| Preservative     | <b>0.01% (w/v) Sodium Azide</b>                                                                          |

**Anti-Mouse IgG F(c) Secondary Antibody - Additional Information****Shipping Condition**

Wet Ice

**Purity**

This product was prepared from monospecific antiserum by immunoaffinity chromatography using Mouse IgG coupled to agarose. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Rabbit Serum, Mouse IgG, Mouse IgG F(c) and Mouse Serum. No reaction was observed against Mouse IgG F(ab')<sub>2</sub>.

**Storage Condition**

Store vial at 4° C prior to opening. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing.

**Precautions Note**

This product is for research use only and is not intended for therapeutic or diagnostic applications.

**Anti-Mouse IgG F(c) Secondary Antibody - Protein Information**

## **Anti-Mouse IgG F(c) Secondary Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

## **Anti-Mouse IgG F(c) Secondary Antibody - Images**

## **Anti-Mouse IgG F(c) Secondary Antibody - Background**

Anti-Mouse IgG F(c) antibody generated in rabbit detects specifically mouse IgG. This secondary antibody anti-Mouse is ideal for investigators who routinely perform titration assays, western-blot, immunoprecipitation and more generally immunoassays.
