

APOM Antibody (monoclonal) (M02)

Mouse monoclonal antibody raised against a full length recombinant APOM.

Catalog # AT1172a

Specification

APOM Antibody (monoclonal) (M02) - Product Information

Application	WB, E
Primary Accession	O95445
Other Accession	BC020683
Reactivity	Human
Host	mouse
Clonality	Monoclonal
Isotype	IgG2b Kappa
Calculated MW	21253

APOM Antibody (monoclonal) (M02) - Additional Information

Gene ID 55937

Other Names

Apolipoprotein M, Apo-M, ApoM, Protein G3a, APOM, G3A, NG20

Target/Specificity

APOM (AAH20683, 23 a.a. ~ 188 a.a) full-length recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.

Dilution

WB~~1:500~1000

Format

Clear, colorless solution in phosphate buffered saline, pH 7.2 .

Storage

Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Precautions

APOM Antibody (monoclonal) (M02) is for research use only and not for use in diagnostic or therapeutic procedures.

APOM Antibody (monoclonal) (M02) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)

- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

APOM Antibody (monoclonal) (M02) - Images

Antibody Reactive Against Recombinant Protein. Western Blot detection against Immunogen (44 kDa).

Detection limit for recombinant GST tagged APOM is approximately 0.3 ng/ml as a capture antibody.

APOM Antibody (monoclonal) (M02) - Background

The protein encoded by this gene is an apolipoprotein and member of the lipocalin protein family. It is found associated with high density lipoproteins and to a lesser extent with low density lipoproteins and triglyceride-rich lipoproteins. The encoded protein is secreted through the plasma membrane but remains membrane-bound, where it is involved in lipid transport. Two transcript variants encoding two different isoforms have been found for this gene, but only one of them has been fully characterized.
