

MDFI Antibody (monoclonal) (M07)

Mouse monoclonal antibody raised against a partial recombinant MDFI. Catalog # AT2824a

Specification

MDFI Antibody (monoclonal) (M07) - Product Information

Application IF, WB **Primary Accession** 099750 Other Accession NM 005586 Reactivity Human Host mouse Clonality **Monoclonal** Isotype IgG2a Kappa Calculated MW 25029

MDFI Antibody (monoclonal) (M07) - Additional Information

Gene ID 4188

Other Names

MyoD family inhibitor, Myogenic repressor I-mf, MDFI

Target/Specificity

MDFI (NP 005577, 33 a.a. ~ 110 a.a) partial recombinant protein with GST tag. MW of the GST tag alone is 26 KDa.

Dilution

WB~~1:500~1000

Format

Clear, colorless solution in phosphate buffered saline, pH 7.2.

Storage

Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Precautions

MDFI Antibody (monoclonal) (M07) is for research use only and not for use in diagnostic or therapeutic procedures.

MDFI Antibody (monoclonal) (M07) - Protocols

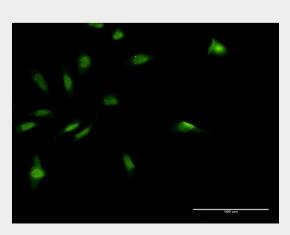

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry

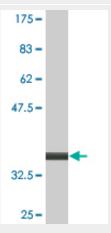

- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

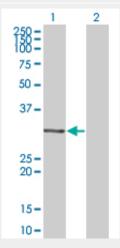

MDFI Antibody (monoclonal) (M07) - Images

Immunofluorescence of monoclonal antibody to MDFI on HeLa cell . [antibody concentration 10 ug/ml]

Antibody Reactive Against Recombinant Protein. Western Blot detection against Immunogen (34.32 KDa).

Western Blot analysis of MDFI expression in transfected 293T cell line by MDFI monoclonal

antibody (M07), clone 3B4.

Lane 1: MDFI transfected lysate(25.029 KDa).

Lane 2: Non-transfected lysate.

MDFI Antibody (monoclonal) (M07) - Background

This protein is a transcription factor that negatively regulates other myogenic family proteins. Studies of the mouse homolog, I-mf, show that it interferes with myogenic factor function by masking nuclear localization signals and preventing DNA binding. Knockout mouse studies show defects in the formation of vertebrae and ribs that also involve cartilage formation in these structures.
