

## CREB1 Antibody

Purified Mouse Monoclonal Antibody (Mab) Catalog # AW5058

### Specification

# **CREB1 Antibody - Product Information**

Application Primary Accession Reactivity Host Clonality Calculated MW Isotype Antigen Source WB,E <u>P16220</u> Human, Mouse, Rat Mouse Monoclonal H=37,35;M=37,35;Rat=37 KDa IgG1,ĸ HUMAN

## **CREB1** Antibody - Additional Information

Gene ID 1385

**Other Names** 

Cyclic AMP-responsive element-binding protein 1, CREB-1, cAMP-responsive element-binding protein 1, CREB1

Dilution WB~~1:1000

Target/Specificity

This CREB1 antibody is generated from a mouse immunized with a recombinant protein from human CREB1.

Format

Purified monoclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions** CREB1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

#### **CREB1 Antibody - Protein Information**

Name CREB1

**Function** 

Phosphorylation-dependent transcription factor that stimulates transcription upon binding to the DNA cAMP response element (CRE), a sequence present in many viral and cellular promoters (By

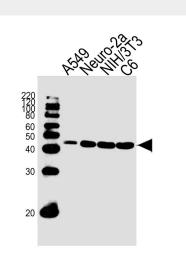

similarity). Transcription activation is enhanced by the TORC coactivators which act independently of Ser-119 phosphorylation (PubMed:<a href="http://www.uniprot.org/citations/14536081" target="\_blank">14536081</a>). Involved in different cellular processes including the synchronization of circadian rhythmicity and the differentiation of adipose cells (By similarity). Regulates the expression of apoptotic and inflammatory response factors in cardiomyocytes in response to ERFE-mediated activation of AKT signaling (By similarity).

Cellular Location Nucleus {ECO:0000255|PROSITE-ProRule:PRU00312, ECO:0000255|PROSITE-ProRule:PRU00978, ECO:0000269|PubMed:12552083}

# **CREB1 Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
- **CREB1 Antibody Images**

Western blot analysis of lysates from A549,mouse Neuro-2a,NIH/3T3,rat C6 cell line (from left to right), using CREB1 Antibody(Cat. #AW5058). AW5058 was diluted at 1:1000 at each lane. A goat anti-mouse IgG H&L(HRP) at 1:10000 dilution was used as the secondary antibody.Lysates at 20ug per lane.

#### CREB1 Antibody - Background

Phosphorylation-dependent transcription factor that stimulates transcription upon binding to the DNA cAMP response element (CRE), a sequence present in many viral and cellular promoters. Transcription activation is enhanced by the TORC coactivators which act independently of Ser-133 phosphorylation. Involved in different cellular processes including the synchronization of circadian

rhythmicity and the differentiation of adipose cells.
