ZNF654 Antibody(C-term) - Additional Information

Antigen Region

519-545

Other Names

ZNF654; Zinc finger protein 654; Melanoma-associated antigen

Dilution WB~~1:1000

Target/Specificity

This ZNF654 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 519-545 amino acids from the C-terminal region of human ZNF654.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

ZNF654 Antibody(C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

ZNF654 Antibody(C-term) - Protein Information

Name ZNF654 (<u>HGNC:25612</u>)

Function

May be involved in transcriptional regulation.

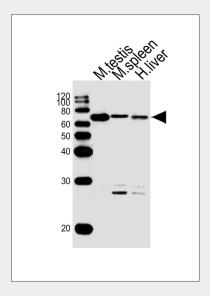

Cellular Location Nucleus.

ZNF654 Antibody(C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

ZNF654 Antibody(C-term) - Images

Western blot analysis of lysates from mouse testis, mouse spleen, human liver tissue lysate (from left to right), using ZNF654 Antibody (C-term)(Cat. #AW5102). AW5102 was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L(HRP) at 1:10000 dilution was used as the secondary antibody.

ZNF654 Antibody(C-term) - Background

ZNF654 may be involved in transcriptional regulation (By similarity).
