

SSPN Antibody (N-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AW5200

Specification

SSPN Antibody (N-term) - Product Information

Application Primary Accession Reactivity Host Clonality Calculated MW Isotype Antigen Source WB,E <u>O14714</u> Human Rabbit Polyclonal H=27,14 KDa Rabbit IgG Human

SSPN Antibody (N-term) - Additional Information

Gene ID 8082

Antigen Region 6-34

Other Names SSPN;KRAG; Sarcospan; Sarcospan; K-ras oncogene-associated protein; Sarcospan; Kirsten-ras-associated protein

Dilution WB~~1:1000

Target/Specificity

This SSPN antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 6-34 amino acids from the N-terminal region of human SSPN.

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

SSPN Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.

SSPN Antibody (N-term) - Protein Information

Name SSPN

Synonyms KRAG

Function

Component of the dystrophin-glycoprotein complex (DGC), a complex that spans the muscle plasma membrane and forms a link between the F-actin cytoskeleton and the extracellular matrix. Preferentially associates with the sarcoglycan subcomplex of the DGC.

Cellular Location

Cell membrane; Multi-pass membrane protein. Cell membrane, sarcolemma Postsynaptic cell membrane; Multi-pass membrane protein. Note=Also found in myotendinous junctions and in the postsynaptic membrane of neuromuscular junctions.

Tissue Location

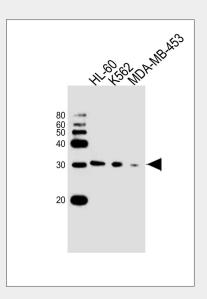

Isoform 1 is expressed exclusively in heart and skeletal muscle. Isoform 2 is expressed in heart, skeletal muscle, thymus, prostate, testis, ovary, small intestine, colon and spleen

SSPN Antibody (N-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- <u>Blocking Peptides</u>
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

SSPN Antibody (N-term) - Images

Western blot analysis of lysates from HL-60,K562,MDA-MB-453 cell line (from left to right), using SSPN Antibody (N-term)(Cat. #AW5200). AW5200 was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L(HRP) at 1:10000 dilution was used as the secondary antibody.Lysates at 20ug per lane.

SSPN Antibody (N-term) - Background

Component of the dystrophin-glycoprotein complex (DGC), a complex that spans the muscle plasma membrane and forms a link between the F-actin cytoskeleton and the extracellular matrix. Preferentially associates with the sarcoglycan subcomplex of the DGC.
