

# FN3KRP Antibody (N-Term)

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AW5569

# Specification

# FN3KRP Antibody (N-Term) - Product Information

Application Primary Accession Reactivity Host Clonality Calculated MW Isotype Antigen Source WB, IHC,E <u>Q9HA64</u> Human Rabbit Polyclonal H=34;M=34 KDa Rabbit IgG HUMAN

# FN3KRP Antibody (N-Term) - Additional Information

Gene ID 79672

Antigen Region 24-58

**Other Names** Ketosamine-3-kinase, 271-, Fructosamine-3-kinase-related protein, FN3K-RP, FN3K-related protein, FN3KRP

**Dilution** WB~~1:2000 IHC~~1:25

Target/Specificity

This FN3KRP antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 24-58 amino acids from human FN3KRP.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions** FN3KRP Antibody (N-Term) is for research use only and not for use in diagnostic or therapeutic procedures.

#### FN3KRP Antibody (N-Term) - Protein Information

Name FN3KRP {ECO:0000303|PubMed:15137908, ECO:0000312|HGNC:HGNC:25700}

Function

Ketosamine-3-kinase involved in protein deglycation by mediating phosphorylation of

ribuloselysine and psicoselysine on glycated proteins, to generate ribuloselysine-3 phosphate and psicoselysine-3 phosphate, respectively (PubMed:<a

href="http://www.uniprot.org/citations/14633848" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/15137908" target="\_blank">15137908</a>). Ribuloselysine-3 phosphate and psicoselysine-3 phosphate adducts are unstable and decompose under physiological conditions (PubMed:<a href="http://www.uniprot.org/citations/14633848" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/14633848" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/14633848" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/15137908" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/14633848" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/15137908" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/15137908" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/15137908" target="\_blank">14633848</a>, PubMed:<a href="http://www.uniprot.org/citations/15137908" target="\_blank">14633848</a>).

#### **Tissue Location**

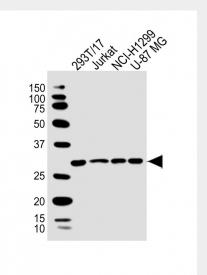

Widely expressed; except in skeletal muscle where it is expressed at very low level (PubMed:15331600). Expressed in erythrocytes (PubMed:15137908).

# FN3KRP Antibody (N-Term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

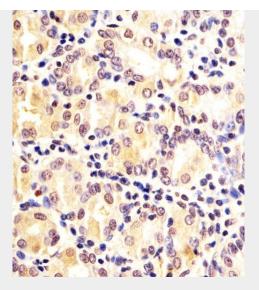

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

All lanes : Anti-FN3KRP Antibody (N-Term) at 1:2000 dilution Lane 1: 293T/17 whole cell lysate Lane 2: Jurkat whole cell lysate Lane 3: NCI-H1299 whole cell lysate Lane 4: U-87 MG whole cell lysate Lysates/proteins at 20  $\mu$ g per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 34 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

AW5569 staining FN3KRP in human Stomach sections by Immunohistochemistry (IHC-P - paraformaldehyde-fixed, paraffin-embedded sections). Tissue was fixed with formaldehyde and blocked with 3% BSA for 0. 5 hour at room temperature; antigen retrieval was by heat mediation with a citrate buffer (pH6). Samples were incubated with primary antibody (1/25) for 1 hours at 37°C. A undiluted biotinylated goat polyvalent antibody was used as the secondary antibody.

# FN3KRP Antibody (N-Term) - Background

Phosphorylates psicosamines and ribulosamines, but not fructosamines, on the third carbon of the sugar moiety. Protein- bound psicosamine 3-phosphates and ribulosamine 3-phosphates are unstable and decompose under physiological conditions. Thus phosphorylation leads to deglycation.
