

Clorf84 Antibody (N-term) Blocking peptide Synthetic peptide Catalog # BP10026a

## **Specification**

# Clorf84 Antibody (N-term) Blocking peptide - Product Information

Primary Accession Other Accession <u>Q5T011</u> <u>NP 001012979.1, NP 056099.2</u>

## Clorf84 Antibody (N-term) Blocking peptide - Additional Information

Gene ID 23334

**Other Names** Protein SZT2, Seizure threshold 2 protein homolog, SZT2, C1orf84, KIAA0467

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions** This product is for research use only. Not for use in diagnostic or therapeutic procedures.

## Clorf84 Antibody (N-term) Blocking peptide - Protein Information

Name SZT2 (<u>HGNC:29040</u>)

### Function

As part of the KICSTOR complex functions in the amino acid- sensing branch of the TORC1 signaling pathway. Recruits, in an amino acid-independent manner, the GATOR1 complex to the lysosomal membranes and allows its interaction with GATOR2 and the RAG GTPases. Functions upstream of the RAG GTPases and is required to negatively regulate mTORC1 signaling in absence of amino acids. In absence of the KICSTOR complex mTORC1 is constitutively localized to the lysosome and activated. The KICSTOR complex is also probably involved in the regulation of mTORC1 by glucose (PubMed:<a href="http://www.uniprot.org/citations/28199306" target="\_blank">>28199306</a>, PubMed:<a href="http://www.uniprot.org/citations/28199306" target="\_blank">>28199306</a>). May play a role in the cellular response to oxidative stress (By similarity).

### **Cellular Location**

Lysosome membrane. Peroxisome {ECO:0000250|UniProtKB:A2A9C3}. Note=Localization to lysosomes is amino acid-independent.

Tissue Location

Expressed in the brain, predominantly in the parietal and frontal cortex, as well as in dorsal root

ganglia Expressed in peripheral white blood cells

# Clorf84 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
