

DCUN1D3 Antibody (N-term) Blocking peptide Synthetic peptide Catalog # BP10356a

## Specification

# DCUN1D3 Antibody (N-term) Blocking peptide - Product Information

Primary Accession Other Accession

### <u>Q8IWE4</u> <u>NP 775746.1</u>

# DCUN1D3 Antibody (N-term) Blocking peptide - Additional Information

Gene ID 123879

Other Names

DCN1-like protein 3, DCUN1 domain-containing protein 3, Defective in cullin neddylation protein 1-like protein 3, DCUN1D3

#### Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage** Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions** 

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

# DCUN1D3 Antibody (N-term) Blocking peptide - Protein Information

Name DCUN1D3 (HGNC:28734)

#### Function

Contributes to the neddylation of all cullins by transferring NEDD8 from N-terminally acetylated NEDD8-conjugating E2s enzyme to different cullin C-terminal domain-RBX complexes and may play a role in the cell cycle progression by regulating the SCF ubiquitin E3 ligase complex, after UV damage (PubMed:<a href="http://www.uniprot.org/citations/23201271">http://www.uniprot.org/citations/23201271</a>

target="\_blank">23201271</a>, PubMed:<a href="http://www.uniprot.org/citations/19617556" target="\_blank">19617556</a>, PubMed:<a href="http://www.uniprot.org/citations/27542266" target="\_blank">27542266</a>, PubMed:<a href="http://www.uniprot.org/citations/18823379" target="\_blank">18823379</a>). At the cell membrane, can promote and as well inhibit cullins neddylation (PubMed:<a href="http://www.uniprot.org/citations/19617556"

target="\_blank">19617556</a>, PubMed:<a href="http://www.uniprot.org/citations/26906416" target="\_blank">26906416</a>, PubMed:<a href="http://www.uniprot.org/citations/25349211" target="\_blank">25349211</a>).

#### **Cellular Location**

Cell membrane. Cytoplasm. Nucleus. Cytoplasm, perinuclear region. Note=After UVC treatment, the protein enters to the nucleus gradually (PubMed:18823379). Cell membrane localization is

essential for CUL3 neddylation (PubMed:19617556).

### **Tissue Location**

Tends to be down-regulated in different type of cancers, including lung neuroendocrine carcinoma, thyroid Huerthle cell carcinoma and lung squamous cell carcinoma (PubMed:25349211). Mostly expressed in testis and brain (PubMed:26906416). Highly expressed in liver, bladder and renal normal tissue than their tumor tissue counterparts (PubMed:18823379). Palmitoylation stabilizes DCUN1D3 at the cell membrane (PubMed:19617556).

## DCUN1D3 Antibody (N-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
