OR8B8 Antibody (C-term) Blocking peptide

Synthetic peptide
Catalog # BP10862b

Specification

OR8B8 Antibody (C-term) Blocking peptide - Product Information

Primary Accession Q15620

OR8B8 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 26493

Other Names
Olfactory receptor 8B8, Olfactory receptor TPCR85, Olfactory-like receptor JCG8, OR8B8

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

OR8B8 Antibody (C-term) Blocking peptide - Protein Information

Name OR8B8 (HGNC:8477)

Function
Odorant receptor (Potential). May be involved in taste perception.

Cellular Location
Cell membrane; Multi-pass membrane protein

Tissue Location
Expressed in the tongue and testis.

OR8B8 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

Olfactory receptors interact with odorant molecules in thenose, to initiate a neuronal response that triggers the perceptionof a smell. The olfactory receptor proteins are members of a largefamily of G-protein-coupled receptors (GPCR) arising from singlecoding-exon genes. Olfactory receptors share a 7-transmembranedomain structure with many neurotransmitter and hormone receptorsand are responsible for the recognition and G protein-mediatedtransduction of odorant signals. The olfactory receptor gene familyis the largest in the genome. The nomenclature assigned to theolfactory receptor genes and proteins for this organism isindependent of other organisms.
