

BCL7A Antibody (N-term) Blocking peptide
Synthetic peptide
Catalog # BP10984a**Specification**

BCL7A Antibody (N-term) Blocking peptide - Product InformationPrimary Accession [Q4VC05](#)**BCL7A Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 605**Other Names**

B-cell CLL/lymphoma 7 protein family member A, BCL7A

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

BCL7A Antibody (N-term) Blocking peptide - Protein Information**Name** BCL7A**BCL7A Antibody (N-term) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

BCL7A Antibody (N-term) Blocking peptide - Images**BCL7A Antibody (N-term) Blocking peptide - Background**

This gene is directly involved, with Myc and IgH, in a three-way gene translocation in a Burkitt lymphoma cell line. As a result of the gene translocation, the N-terminal region of the gene product is disrupted, which is thought to be related to the pathogenesis of a subset of high-grade B cell non-Hodgkin lymphoma. The N-terminal segment involved in the translocation includes the region that shares a strong sequence similarity with those of BCL7B and BCL7C. Two transcript variants encoding different isoforms have been found for this gene.
