

FBXO24 Antibody (Center) Blocking peptide

Synthetic peptide Catalog # BP11008c

Specification

FBXO24 Antibody (Center) Blocking peptide - Product Information

Primary Accession

075426

FBXO24 Antibody (Center) Blocking peptide - Additional Information

Gene ID 26261

Other Names

F-box only protein 24, FBXO24, FBX24

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

FBXO24 Antibody (Center) Blocking peptide - Protein Information

Name FBXO24

Synonyms FBX24

Function

Substrate-recognition component of the SCF (SKP1-CUL1-F-box protein)-type E3 ubiquitin ligase complex.

FBXO24 Antibody (Center) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

• Blocking Peptides

FBXO24 Antibody (Center) Blocking peptide - Background

This gene encodes a member of the F-box protein familywhich is characterized by an approximately 40 amino acid motif, the F-box. The F-box proteins constitute one of the four subunits

ofthe ubiquitin protein ligase complex called SCFs(SKP1-cullin-F-box), which function in phosphorylation-dependentubiquitination. The F-box proteins are divided into 3 classes: Fbwscontaining WD-40 domains, Fbls containing leucine-rich repeats, and Fbxs containing either different protein-protein interaction modules or no recognizable motifs. The protein encoded by this genebelongs to the Fbxs class. Multiple transcript variants encoding different isoforms have been found for this gene. [provided byRefSeq].
