TIGD3 Antibody (C-term) Blocking peptide

Synthetic peptide
Catalog # BP11042b

Specification

TIGD3 Antibody (C-term) Blocking peptide - Product Information

Primary Accession Q6B0B8

TIGD3 Antibody (C-term) Blocking peptide - Additional Information

Gene ID 220359

Other Names
Tigger transposable element-derived protein 3, TIGD3

Format
Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions
This product is for research use only. Not for use in diagnostic or therapeutic procedures.

TIGD3 Antibody (C-term) Blocking peptide - Protein Information

Name TIGD3

Cellular Location
Nucleus {ECO:0000255|PROSITE-ProRule:PRU00320, ECO:0000255|PROSITE-ProRule:PRU00583}

TIGD3 Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- Blocking Peptides

TIGD3 Antibody (C-term) Blocking peptide - Background

The protein encoded by this gene belongs to the tiggersubfamily of the pogo superfamily of DNA-mediated transposons inhumans. These proteins are related to DNA transposons found infungi and nematodes, and more distantly to the Tc1 and marinertransposases. They are also very similar to the major mammaliancentromere protein B. The exact function of this gene is not known.
