

KILLIN Antibody (C-term) Blocking peptide
Synthetic peptide
Catalog # BP11611b**Specification**

KILLIN Antibody (C-term) Blocking peptide - Product InformationPrimary Accession [B2CW77](#)**KILLIN Antibody (C-term) Blocking peptide - Additional Information****Gene ID** 100144748**Other Names**

Killin, KLLN

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

KILLIN Antibody (C-term) Blocking peptide - Protein Information**Name** KLLN**Function**

DNA-binding protein involved in S phase checkpoint control- coupled apoptosis by mediating p53/TP53-induced apoptosis. Has the ability to inhibit DNA synthesis and S phase arrest coupled to apoptosis. Has affinity to both double- and single-stranded DNA.

Cellular Location

Nucleus.

KILLIN Antibody (C-term) Blocking peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.
