

**C20orf3 Antibody (N-term) Blocking peptide**  
**Synthetic peptide**  
**Catalog # BP11635a****Specification**

---

**C20orf3 Antibody (N-term) Blocking peptide - Product Information**Primary Accession [Q9HDC9](#)**C20orf3 Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 57136**Other Names**

Adipocyte plasma membrane-associated protein, Protein BSCv, APMAP, C20orf3

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**C20orf3 Antibody (N-term) Blocking peptide - Protein Information****Name** APMAP**Synonyms** C20orf3**Function**

Exhibits strong arylesterase activity with beta-naphthyl acetate and phenyl acetate. May play a role in adipocyte differentiation.

**Cellular Location**

Membrane; Single- pass type II membrane protein

**Tissue Location**

Liver, glomerular and tubular structures of the kidney, endothelial cells, arterial wall and pancreatic islets of Langerhans (at protein level). Found ubiquitously in adult as well as in embryonic tissues. In adult tissue, the highest expression is found in the liver, placenta and heart. Found on the cell surface of monocytes. In embryonic tissue, the highest expression levels is found in the liver and the kidney.

**C20orf3 Antibody (N-term) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.
