

**PHF20 Antibody (N-term) Blocking peptide**  
**Synthetic peptide**  
**Catalog # BP12161a****Specification**

---

**PHF20 Antibody (N-term) Blocking peptide - Product Information**Primary Accession [Q9BVI0](#)**PHF20 Antibody (N-term) Blocking peptide - Additional Information****Gene ID** 51230**Other Names**

PHD finger protein 20, Glioma-expressed antigen 2, Hepatocellular carcinoma-associated antigen 58, Novel zinc finger protein, Transcription factor TZP, PHF20, C20orf104, GLEA2, HCA58, NZF, TZP

**Format**

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

**Precautions**

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

**PHF20 Antibody (N-term) Blocking peptide - Protein Information****Name** PHF20**Synonyms** C20orf104, GLEA2, HCA58, NZF, TZP**Function**

Methyllysine-binding protein, component of the MOF histone acetyltransferase protein complex. Not required for maintaining the global histone H4 'Lys-16' acetylation (H4K16ac) levels or locus specific histone acetylation, but instead works downstream in transcriptional regulation of MOF target genes (By similarity). As part of the NSL complex it may be involved in acetylation of nucleosomal histone H4 on several lysine residues. Contributes to methyllysine- dependent p53/TP53 stabilization and up-regulation after DNA damage.

**Cellular Location**

Nucleus.

**Tissue Location**

Expressed in heart, kidney, liver, lung, pancreas, placenta, spleen and testis. Not expressed in brain, skeletal muscle, colon, ovary, prostate, small intestine and thymus. Expressed in colon and ovary cancer cell lines while it is not expressed in the respective normal tissues.

**PHF20 Antibody (N-term) Blocking peptide - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

**PHF20 Antibody (N-term) Blocking peptide - Images****PHF20 Antibody (N-term) Blocking peptide - Background**

PHF20 is possible a transcription factor.
